NO. 181—FIFTY-FIFTH YEAR | VICTORIA, VANCOUVER ISLAND, BRITISH COLUMBIA, SATURDAY, JULY 12, 1913 | TWENTY PAGES

GREAT VICTORIES FOR GREEK ARMY

Bulgarian Forces Are Routed After Severe Fighting, in Which They Lose Guns and Ammunition.

BRITISH CHANCELLOR ON BALKAN AFFAIRS

Hopeful That Powers, Which Are Working in Harmony, Will Be Able to Effect Lasting Settlement.

ATHENS, July 11.—Gen. Ivanoff's army and three divisions of the Istip force, agregating 112 battalions, made its last stand in a strongly entrenched position at Demirhissar, on the left bank of the river Struma, and on the adjacent heights of Intrina, which were well defended with siege artillery. As the Greek artillery was outranged the battle was indecisive for a considerable time. Under cover of darkness, however, the attack was renewed and in a brilliant charge the Greeks dislodged the Bulgarians and drove them across the Struma.

The Greeks then directed their march along the right bank of the river, supported by mountain batteries, and compelled the Bulgarians hurriedly to abandon their position, leaving behind four heavy guns and a quantity of ammunition.

While this battle was in progress the Greeks attacked and disposed of the Bulgarian forces from Istip, capturing twenty guns.

By these two victories the Greeks are considered to have vanquished finally Gen Ivanoff's forces, whose rout was been complete. The Greeks occupied Demirhissar on Thursday, when the Bulgarians evacuated the town.

The Greek troops have occupied Seres.

Complicated Situation.

LONDON, July 11.—Having failed in her hazardous coup, Bulgaria is showing herself anxious for peace. No formal armistice has yet been arranged, but it is believed hostilities are ended. It is feared, however, the settlement of peace conditions will prove a long task, many new elements having entered to complicate matters. Bulgaria's decision not to oppose Roumania's occupation of Silistria and the strip of territory she desires, removes one difficulty. Other developments, however, such as the Greek occupation of Ravala, to which Bulgaria is expected to offer bitter resistance, are calculated to lead to troublesome negotiations, especially as both Servia and Greece, on the outcome of their campaign, will be certain to demand possession of the territory they occupied previous to the war.

Russia is already taking steps in the Balkan capitals to arrange for a cessation of hostilities.

Harmony Among Powers.

The British Chancellor of the Exchequer, David Lloyd George, addressing the bankers at a dinner at the Mansion House tonight referred to Balkan affairs. He said the first trouble was over and he was hopeful that the Powers, which had started so well together, would be able to effect a lasting settlement among those hapless provinces. As long as the Balkan states did nothing to upset the decisions already agreed to among the Powers, continued the Chancellor, it was to be hoped that no Power would find it necessary to take any action which might give rise to difficulty among the Powers themselves.

An Athens dispatch to the Daily Telegraph says Greece refuses to agree to an armistice.

Appeal to King of Greece.

SALONICA, July 11.—A deputation from Seres arrived here today and appealed to King Constantine to dispatch Greek troops to occupy the town. The deputaton asserted that before evacuating Seres the Bulgarians slaughtered a large number of prominent Greeks who had been imprisoned since hostilities began. Among those killed were M. Papapavlos, director of the gymnasium; M. Stamoulis, manager of the Orient Bank, and Dr. Charissivis.

The Bulgarians killed 22 notable men at Seres, and it is reported that a bishop and thirty prominent men of Doiran, taken by the Bulgarians, never reached Seres. It is believed that they were executed on the way to that town.

Surprise Attack Ordered

LONDON, July 11.—The Servian Minister at London has submitted to the British Foreign Office a photographic reproduction of a document found on the body of a Bulgarian officer, which, it is alleged, proves that Bulgarians began the hostilities. The document contains instructions to commence surprise operations against the Greeks and Servians.

Roumanians Occupying City

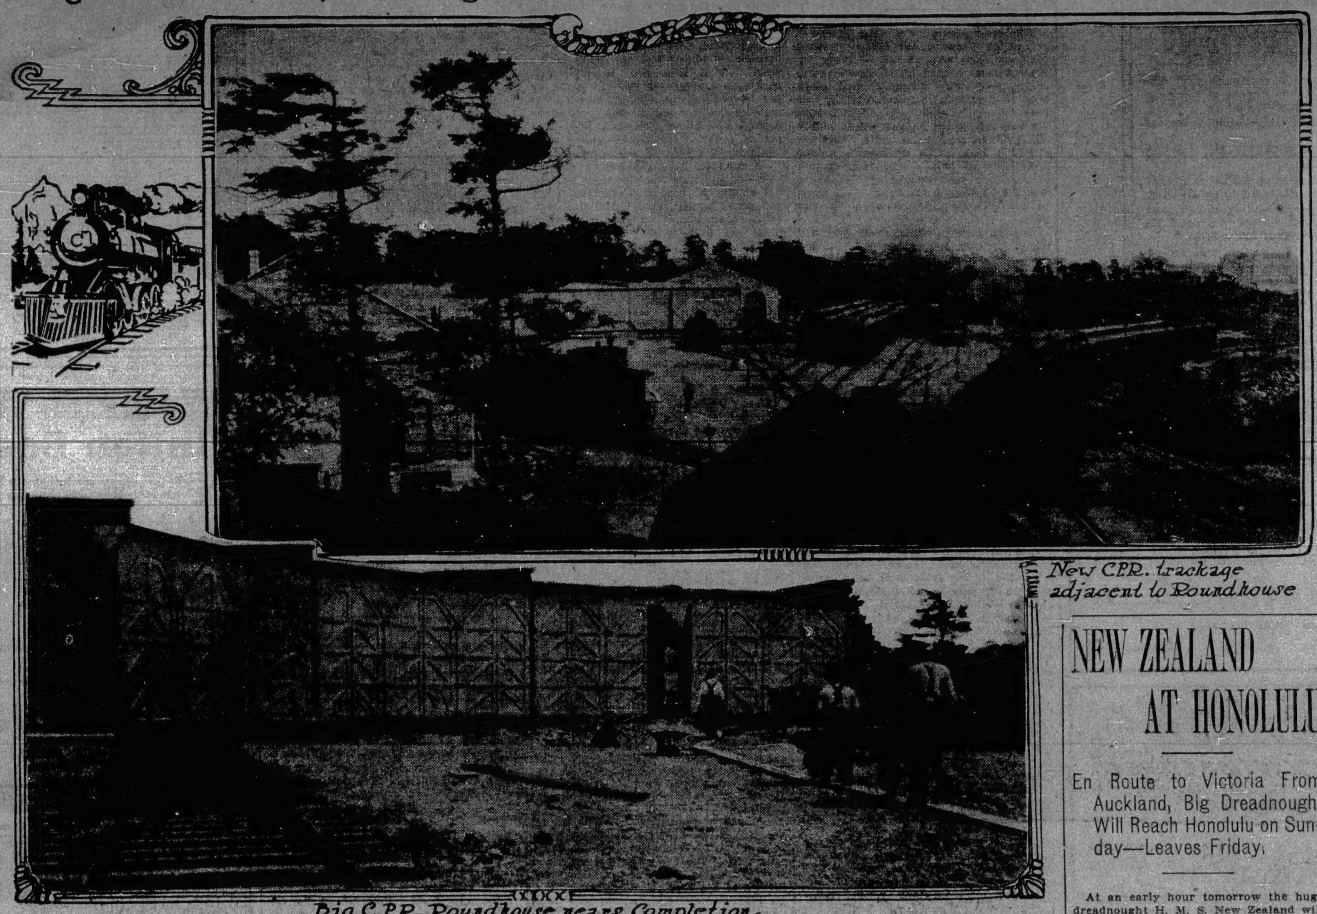

BUCHAREST July 11.—Roumanian troops occupied today the Bulgarian city of Silistria, on the right bank of the Danube. They were not opposed by the Bulgarians.

Servians Claim Victory

VIENNA, July 11.—A Belgrade rumor now says that the Servians have captured Kustendil after two days' fighting.

Progress in Work of Utilizing the Old Indian Reserve — Activity by the C. P. R.

New C.P.R. trackage adjacent to Roundhouse

Big C.P.R. Roundhouse nears Completion

The above pictures, taken yesterday by a Colonist staff photographer, give ocular demonstration of the transformation which is in progress on the old eyesore and blot on the city's landscape for the past fifty years—the former Songhees Indian Reserve. The work now in hand is only part of the plans of the C. P. R. With the building of the Johnson Street Bridge, the construction of roadways, and work by other railway companies the whole of the area will be transformed into one of the busiest sections of Victoria.

GOOD CONDITION CIVIC FINANCES

Lucid Exposition of Financial Situation by Mr. J. J. Shallcross, President of Board of Trade.

Financially, Victoria is in a sound condition. There is money available for the vigorous prosecution of such public works as sewers, schools and waterworks, and to carry them through to a satisfactory conclusion. When provision has been made for all existing obligations, the debt of the city will be much below the amount this city is legally authorized to borrow. With a little economizing the present financial difficulties will right themselves. In this respect Victoria is in a particularly happy condition. All that is necessary is for the business men and citizens to continue to display the unbounded confidence in one another that is shown to exist by the fact that there have been no recent foreclosures, and few, if any, protested agreements for sale.

This was the tenor of a decidedly illuminating and gratifying address on the financial condition in general, and in particular as to the effect of the present money stringency on Victoria, delivered by Mr. J. J. Shallcross, president of the Board of Trade, at the quarterly meeting of that body yesterday afternoon. Mr. Shallcross explained that he was taking a rather exceptional course in taking up finances from the chair, but he did it because, after investigation, he found that the finances of the city were so absolutely satisfactory and the future, with proper management, so bright, that he felt it imperative that the citizens, among whom there was much misunderstanding, should have the situation made clear to them if possible.

Food Problem Wisely

The trouble in Canada, Mr. Shallcross observed, was that the people are so optimistic that they wish to accomplish in one year that which, perhaps, should take several years. In Victoria there had been, within the last few years, a large increase of population. Wisely, in his opinion, it was agreed that these newcomers must be provided with all the facilities that are generally considered necessary in the life of a city. Thus many public works had to be undertaken, such as the extension of sewerage systems, the building of more and larger schools, the procuring of an ade-

HOLIDAY FOR ORANGEMEN

Members of Order in Employment of Government Granted Day Off to Join in Celebration

OTTAWA, July 11.—Hon. J. D. Reid, Acting Minister of Public Works, this afternoon issued instructions to the various departments to give the members of the Orange Order in the employment of the Government a holiday on July 12. The French-Canadian members of the civil service in some of the departments got a holiday on St. Jean Baptiste Day. Orangemen in the employ of the Government asked for similar treatment, but a number of the departmental heads refused to act without authority. L. E. Stanley, preceptor of the Royal Black Preceptory of the Ottawa district, and other prominent members of the order took up the matter with Dr. Reid, who instructed the heads of the departments to grant the privilege to employees who desire to celebrate the glorious twelfth.

FINANCES SHOW LARGE SURPLUS

Estimate of Hon. Mr. White in His Budget Fully Justified—Public Debt Reduced by $20,000,000.

OTTAWA, July 11.—The fiscal year closed today, and the estimate of Hon Mr. White in his budget speech is fully justified. The oft repeated complaint with reference to tight money is not reflected in any way in the financial statement of the country.

There is a surplus of current account of $56,500,000. The public debt is reduced by $20,000,000, this amount representing the surplus of revenue over capital and consolidated outlay.

The total revenue on consolidated fund was $188,600,000, as against $136,108,217 in the previous year. The expenditure in the same period was $112,000,000, as compared with $98,151,446.

Victim of Live Wire

WINNIPEG, Man., July 11.—Miss Jennie Mitchell was electrocuted last night while returning home from a visit to a friend on Armstrong Point. Miss Mitchell came in contact with a live wire, which had been blown down during last night's rainstorm. The body of Miss Mitchell was found this morning.

SHIPS REVIEWED BY HIS MAJESTY

King George at Liverpool in Reply to an Address Makes Allusion to Emigration to Canada.

LONDON, July 11.—During the visit to Liverpool today, the King, replying to an address by the Lord Mayor, said:

"Liverpool appeals to the imagination as the gateway through which vast numbers travel from this country to the Continent of North America, many to start a new career in the Dominion of Canada, and others to visit that great sister nation with which we are so soon to celebrate a century of unbroken peace."

On board the Empress of Ireland, His Majesty, as he passed in his review of the merchant shipping, saw, appropriately enough, many hundreds seeking that new career in Canada of which he had spoken. The ship was due to sail, and had all her passengers on board, said in the volume and ringing sincerity of their cheers they outdid all the other vessels, which were filled with guests.

The steerage of the Empress was crowded with emigrants, and they sang with full hearts as loyal people leaving the country of their birth, happily not for a foreign, but for a familiar land—the National Anthem, whose strains stirred such chords of sentiment in their breasts.

CHICAGO GETS CONVENTION

International Congress of Christian Endeavor Societies Will Be Held There in 1915

LOS ANGELES, Cal., July 11.—Chicago today was chosen for the next biennial session of the International convention of the Christian Endeavor in July, 1915. Toronto was at first a strong claimant, while Winnipeg also made strenuous efforts to secure the next convention.

The question "Should Religion Be Taught in the Schools" was answered affirmatively today by the conference of ministers attending the convention. Dr. Charles M. Sheldon of Topeka, Kansas, leader of the conference, recommended the compilation of a Bible text book for use in the schools. He also spoke in favor of the abolishment of "Frats" as a menace to democracy.

SEEKING INVESTIGATION

Men Dismissed From Calgary Land Titles' Office Will Lay Case Before the Attorney-General

CALGARY, Alta., July 11.—A. B. Dulmage, W. E. Oriedge, R. Burdette, Fred Herdman and Frank Wilson, deputy registrar, all of whom were relieved of their duties at the land titles office in this city, following upon the theft of $74 and certain cash books, left the city last night for Edmonton to lay their grievances before the Attorney-General's Department. They claim they were unjustly dismissed and ask for a thorough investigation so that they may have a chance of clearing themselves.

In view of the dismissals, a large number of applications have been received by Wilford Forbes, registrar, but no more men will be taken on for the present. There is little change in the situation. Provincial detectives are still working on the case but have made no arrests yet.

TARIFF REVISION BEFORE SENATE

Discussion to Begin Next Week —Republican Leaders Declare Debate Will Not Be Prolonged.

WASHINGTON, D. C., July 11.—Discussion of the Underwood-Simmons tariff revision bill will begin in the Senate next Wednesday at noon. On Monday, however, the opening assault on the Democratic measure will be made by Senator McCumber, of North Dakota, who will speak on the agricultural schedule. Chairman Simmons today said he thought the debate on the bill could be concluded in five weeks, and Senator Smoot, of the minority, agreed with him, declaring that the Republicans had no notion of purposely prolonging the discussion.

There probably will be two minority reports by Senators Penrose, Root, Lodge, McCumber, Gallinger and Clark, and a separate report by Senator Lafollette, who has had experts at work on the bill, and will have amendments which constitute practically a new measure. Senator Root has in preparation a new wool schedule, which he intends to submit as an amendment.

On Wednesday Senator Simmons will file the majority report and make the opening argument.

DISARMAMENT IS OUT OF QUESTION

Important Declaration by Rt. Hon. David Lloyd George at Mansion House Dinner Last Evening.

"WE CANNOT CEASE STRENGTHENING FORCES"

Discusses Financial Situation Throughout the World and Finds No Cause for Apprehension in the Outlook.

LONDON, July 11.—Rt. Hon. David Lloyd George, Chancellor of the Exchequer, attending the customary Mansion House dinner to the City Bankers tonight, analysed some of the causes leading up to the recent money stringency. He also referred to the enormous and lamentable growth of armaments, but said that no individual country could afford to disarm.

"We cannot give in; we cannot cease strengthening our forces; we cannot weaken in the slightest degree the immunity we have against invasion.

"It is too terrible a fact," the Chancellor added. "The same thing applies to the continent, because there is no country that has not known what invasion means in the last 100 years, and, therefore, whatever is done, must be done by an understanding among the powers of the world.

No Cause for Alarm

"There is no cause for alarm, however. I have taken care during the past few weeks in consulting those in touch with the world's business, commerce and industry. They have all told me the same things; that there is no cause for apprehension, and that all this uneasiness which has been felt in the world's markets for weeks and months has, in itself, I won't say forced, but has constrained those engaged in the business of finance, to take precautions so as to be able to steady themselves against the shocks when they come. They are husbanding their resources, pulling themselves together to strengthen themselves against any possible eventuality, and I hear the same story from America, France, Germany and this country."

NEW ZEALAND AT HONOLULU

En Route to Victoria From Auckland, Big Dreadnought Will Reach Honolulu on Sunday—Leaves Friday.

At an early hour tomorrow the huge dreadnought H. M. S. New Zealand will steam into the Hawaiian port of Honolulu en route from the shores of the South Sea colony to Victoria on her world-circling tour.

The itinerary of the New Zealand gift to Great Britain was received yesterday by Commander Walter, of H. M. S. Shearwater, who, together with Commander Hose, of H. M. C. S. Rainbow, and Commander Brooker, of H. M. S. Algerine, will be the official representatives of the British Navy to welcome the big warship upon her arrival at Esquimalt. The New Zealand will remain five days at Honolulu, sailing on July 18 for Esquimalt direct.

Apart from the customary salutations between the officers of the Esquimalt war-vessels and the New Zealand, nothing out of the ordinary will be done in the way of a reception to the dreadnought as far as the naval vessels on this Coast are concerned.

In conversation last night, Commander Hose stated that it was not customary with naval men, who were always meeting under similar circumstances in every part of the world, to go farther than extend the usual courtesies.

Extend Naval Courtesies

Just as soon as the New Zealand takes up her anchorage in Esquimalt Harbor, Commander Hose, Commander Walter and Commander Brooker, will go aboard to greet Commander Halsey and his officers.

The crews of the British vessels in the harbor will cheer themselves hoarse as the visiting warship passes to her moorings, after which the public welcoming ceremonies will be carried out. The New Zealand will remain here until July 27, when she will sail for Vancouver, returning here on August 4 to remain for the Carnival Week.

Prior to her departure from Honolulu, the New Zealand will take aboard Welsh bunker coal from a British collier dispatched from Cardiff to await the arrival of the dreadnought.

HONOLULU, July 11.—An invitation to enjoy an elaborate programme of entertainment issued by British residents of this city was accepted by wireless today by the officers and crew of the British battleship New Zealand, due tomorrow.

The New Zealand is the largest warship that ever visited Hawaii. Her crew will be entertained generously until their departure for Victoria, B. C., July 19.

LECTURED BY MINISTER

Col. the Hon. S. Hughes Takes Officers of Permanent Forces to Task for Neglecting Duties

HALIFAX, N. S., July 11.—Col. the Hon. Sam Hughes, Minister of Militia, entertained the permanent and active militia officers of Halifax garrison at dinner tonight, and created somewhat of a sensation by roundly lecturing the regular officers for idling and neglecting their duties. He declared that the permanent forces was no place for men who desired to spend their time in idleness, profligacy and social gaiety, and any men who failed to do their work could look for very little sympathy. He referred to the friction which had existed between the active militia and the permanent forces all over the Dominion and defended his policy of appointing men of the active forces to positions which men of the permanent corps were not qualified to fill.

Col. Hughes said this condition had been met with all over Canada, although he had refrained from speaking of it. He impressed on the permanent corps officers that their force existed purely for instructional purposes and that they were nothing more than military schoolmasters.

Sir Ian Hamilton, inspector general of Overseas forces, paid high compliments to the local militia, declaring that the Halifax regiments were fully up to the standard of the best corps throughout the Empire.

Victims of Canoe Accident

BUFFALO, July 11.—A hydro-aeroplane skimming the surface of Lake Erie and the Niagara River, this afternoon played a prominent part in the search for the bodies of the five canoeists who were drowned off Windmill Point last Sunday. Three bodies were recovered. The bodies found were those of Carl Goodrich, Reginald Macmahon and Albert Kaynor, all of Niagara Falls. Two were found in the lake and one in the river. The body of Thomas Brophy, recovered yesterday, was identified today. The body of Edward Reichart is missing.

DIAMONDS

The Gem Indestructible

The Diamond

The first consideration when purchasing a diamond is not "How much?" but "What is the quality?" There are various qualities, i.e.:

THE BLUE-WHITE YAGER, which is by far the finest.

THE BLUE-WHITE WESSELTON, which comes second to the YAGER.

Then there are a dozen or more different grades and qualities, which we have no room to detail here.

The fact that diamonds are increasing in value, as well as being everlasting, makes the purchase an INVESTMENT in every sense of the word.

Our years of experience in the buying and selling of diamonds are at your service, whether a purchaser or not.

ACTIVITY IN WORK ON NORMAL SCHOOL

Excavation Now More Than Half Done—First Stone Is Likely to Be Laid in Coming Fall.

The excavations for the Normal School of Victoria are being pushed forward with the utmost celerity by the contractors, Messrs. Luney Brothers, and already they announce that more than half of this preliminary work has been accomplished. Their contract calls for the completion of the whole building by January, 1915, this $300,000 school taking, it is estimated, nearly two years to build. The large gangs of workmen are working double shifts, and the laying of the first stone may be confidently expected early in the Fall.

As was announced in these columns on Wednesday last, stone will replace the terra cotta specified for all over the building.

The extreme exterior dimensions of the building are 76 feet by 313 feet, the construction to be thoroughly fireproof, of reinforced concrete, red pressed brick, and stone with slate roof. A central tower, 95 feet in height, is one of the features of the design. The main entrance to the building will be finished in terrazzo tile. The interior of the auditorium is carried out in plaster decorations. The specifications call for a complete fire protection system.

Included in the equipment will be a system of low-pressure steam heat, exhaust ventilation, vacuum cleaning plant, gas plant, wood block floors throughout, automatic temperature control, electric time system, inter-communication telephone system, and a full equipment for the various rooms and departments on the different floors.

On the lower floor will be a gymnasium 73 feet by 35 feet; recreation rooms, heating and fuel chambers, store rooms, lavatories, bath and dressing rooms, and plunge and shower baths for both sexes, luncheon rooms, manual training, masters' rooms, cycle rooms, games and storage rooms and janitor's rooms.

An auditorium, 73 feet by 35 feet, with gallery, platform, anterooms, etc., four students' class rooms, etc.; three model scholars' class rooms, principal's and teachers' rooms, two music rooms, secretary's office, cloak and locker rooms, library, store and stock rooms, lavatories, etc., will occupy the ground floor.

On the first floor will be situated four class rooms, clay modeling, art, science, lecture and preparation rooms, optical dark room, biological, chemical and physical laboratories, balance and stores rooms, science master and assistant science masters' rooms, lavatories, etc.

A feature on this floor will be a section devoted to the study of domestic science, including lecture room, a laundry, dressmaking and sewing rooms, cookery department, and a complete living suite, with two bedrooms, dining-room, etc. On the first floor will also be rest and sick rooms, a room for medical stores, etc.

Mr. W. C. F. Gillam, of Vancouver and Victoria, is the architect.

SMALL HOLDINGS DECREASE

Census Branch of Ontario Department of Agriculture Issues Statistics Regarding Land

TORONTO, Ont., July 11.—The census branch of the Department of Agriculture today issued a bulletin giving the results of the agricultural census for Ontario taken on June 1, 1911. The bulletin states that at the date of the census the area of the Province was 166,951,636 acres; since then the area has been increased by the extensions of the Boundaries Act in 1912 by 93,696,000 acres, or 146,400 square miles, making the present area of the Province 260,647,636 acres, or 353,262 square miles, which is nearly three times the area of the United Kingdom. The area of occupied land in 1911 was 25,933,700 acres, as against 21,349,524 acres in 1901, and of 21,091,698 acres in 1891, being an increase of 2.73 per cent in the last decade as against 1.22 per cent in the previous one.

The land area of the Province, inclusive of the district of Patricia, is 141,125,330 acres. Of this only 15.54 per cent was occupied for agricultural purposes. A number of farm holdings in 1911 was 223,260 as against 224,127 in 1901, and 285,608 in 1891. This decrease in the last decade has occurred wholly in the case of the smaller holdings, the number of occupiers of less than one acre having decreased by 5,659, and those of from one to five acres by 225. These small holdings, being usually contiguous to cities and towns, the natural tendency is to convert them into building lots to provide for the rapid development of urban centres and thus remove them from the number of producing agricultural areas. While the number of small holdings has decreased in the decade, yet the number of holdings of larger dimensions are on the increase, there being an increase of 1,140 in holdings of from five to ten acres, of 470 in holdings of eleven to fifty acres, of 1,007 in holdings of fifty to 100 acres, of 1,810 in holdings of 100 to 200 acres, and of 434 in holdings over 200 acres. The average size per holding in 1911 was 98.25 acres against 95.25 acres in 1901.

To Declare Final Dividend

TORONTO, Ont., July 11.—The York County Loan and Saving Co., since it went into liquidation in 1905 has paid two dividends, each of twenty-five cents. Another effort will be made to clear up the loose end of business sufficiently to declare a dividend some time toward the end of the year. An authority declares that the final dividend will be in the neighborhood of five or six cents, making the total dividend paid to shareholders fifty-five cents on the dollar.

DISORDERLY SUFFRAGETTES

Create Scene in Gallery in House of Commons—Members Showered With Suffrage Literature

LONDON, July 11.—The House of Commons was perturbed today by the report of a pistol in the chamber. The report was accompanied by a disturbance made by suffragettes. There were yells of "justice for women," immediately following the report. At the same time persons seated in the strangers' gallery showered pamphlets in profusion on the members below. These bore the printed words "votes for women."

Members sitting below the strangers' gallery were further disturbed by a number of mouse and rat traps which were thrown from the gallery, evidently as a satire on the law made by the Government in connection with the suffragette movement that has since become known by the term "cat and mouse law." The mouse traps were wrapped in copies of the pamphlet.

Immediately an investigation was instituted, and two persons were pointed out as having been concerned in firing the pistol and in distributing the suffrage literature. These were hustled from the gallery and were detained pending a further inquiry.

It developed that the pistol which started the commotion was only a toy pistol.

Miss Clara Elizabeth Given, who, with Kitty Mario, was sentenced on July 3 to three years' penal servitude for setting fire to the stands on Hurst Park racecourse, was released from prison today in a serious condition resulting from a "hunger and thirst strike."

Mrs. Beatrice H. Saunders, the financial secretary of the Women's Social and Political Union, was liberated from prison tonight for the second time. Her first release on licence occurred on June 25, and she was rearraigned only two days ago. Abstention from food and water so greatly weakened her that it became necessary to set her free. Mrs. Saunders' term of imprisonment was fifteen months. deh— rbingt ffragu aoiesu gainG vag

NEW ZEALAND AT HONOLULU

Continued From Page 1

LONDON, July 11.—The thanks of His Majesty the King for New Zealand's gift of a battle cruiser, the New Zealand, were conveyed today to Lord Liverpool, the Governor of the Dominion, by Rt. Hon. Louis Harcourt, Secretary for the Colonies, in the following telegram:

"I have laid before the King your telegram from which His Majesty has learned with great satisfaction of the exemplary conduct of the men of the New Zealand while in the waters of the Dominion. His Majesty commands me to take this opportunity of expressing his deep interest in the people of New Zealand and his appreciation of their generosity. The King has sent the New Zealand to His Majesty's navy for the defence of the Empire and expresses his gratification that the manner in which their splendid gift is being utilised meets with their approval."

GREAT VICTORIES FOR GREEK ARMY

Continued From Page 1

Bulgaria Protests

PARIS, July 11.—The Bulgarian Legation here has received instructions from Sofia to protest as energetically as possible to the French Government against the invasion of Bulgarian territory by Roumania.

Reports of Massacres

LONDON, July 12.—The Saloniea correspondent of The Times gives a report transmitted by the King's order that the Servian commander, when he entered Demirhissar, was informed that the Bulgarians prior to quitting the town, arrested a bishop, two priests and more than 100 Greek notables and herded them in a yard in a Bulgarian school, where they were mercilessly butchered by order of a Bulgarian officer. The Servian commander had the bodies disinterred, the report says, and says the crime was certified.

The Daily Mail's correspondent with the Servian army reports, by way of Kumanovo, that the Bulgarians on arriving at Kujaznavts in Eastern Servia, pillaged all the shops and some private houses. After the Servians had driven them out, a scene of devastation was disclosed which so incensed the Servians that they attacked the Bulgarians again, inflicting terrible losses. Some reports give as high at 6,000 Bulgarians killed.

It is asserted that the Bulgarians employed a questionable ruse to get their artillery across the Zletovo River in their retreat on July 10. They sent delegates with a priest to the Servian positions begging an armistice. The request was granted. In the meantime the guns were taken across, and the Bulgarians reopened with a heavy fire, causing heavy losses to the Servians.

Rumors are current at Bucharest, although not confirmed, of a revolution in Sofia and an attempt on the life of Premier Daneff.

No dispatches of any kind are coming from Sofia. Either a severe censorship is operating or grave events are happening.

According to a report from Rome preparations are being made for the probable transfer of the administration from Sofia to Philippolis.

A Sofia dispatch to the Times dated July 10th., says that the Queen visited Kustendil to superintend the hospital arrangements.

The Times correspondent with the Servians says that the Bulgarian Generallissimo Dimitrieff is somewhere in the neighborhood of Kustendil with the fourth army corps. This dispatch is dated July 11th. and says nothing about Kustendil.

The Bucharest correspondent of the Post learns that Roumania will now insist that the Turtuski-Baltic line shall be so drawn as to leave Dobritch and its plains to Roumania. It is added that Austria has intimated to Bulgaria her complete sympathy with Roumania and will allow free passage of materials of war for the Roumanian army through Austria-Hungary.

GEOLOGICAL CONGRESS TO VISIT VICTORIA

Aggregation of Leading Scientists Will Come West to Study Coal Situation—First Time in Canada.

During the month of August Victoria will be visited by one of the greatest international bodies of the day. It is the Geological Congress, which this year, has been assigned to Canada for the first time in the history of the organization, and it is assured that there will be in attendance at the various meetings that have been arranged throughout the Dominion a number of the leading minds in the realm of scientific research from all quarters of the world. Mr. C. H. Clapp, of the Geological Survey, who was in the city yesterday, made this announcement.

The congress will have its first meeting in the East at an early date, says Mr. Clapp, and thereafter a series of extensive excursions will be undertaken, so that the entire Dominion, from Halifax to Victoria, and from the boundary to the Yukon, will be visited and geologically inspected. Two of the excursion parties will come to Victoria and the other Coast cities, and after meeting in convention here with local geologists, they will proceed northwards right up to the Yukon Territory. This division of the great congress into parties was necessitated on account of the tremendous extent of this country. Otherwise it would take years to achieve the task in hand. In other and older countries, notably in Europe, the congress was able to keep together, and all the members saw all the different conditions, but in a country with the vast dimensions of Canada and the tremendous variety of conditions, it would of course, be impossible to attempt to take them in as a whole, and consequently the congress has been divided into a series of parties.

Covers Wide Territory

When it is stated that the congress will comprise delegates from nearly forty different countries, it will be realized that the geological movement throughout the scientific world is a big one, and that the studies proposed to be undertaken in Canada are regarded as of particular significance. The congress stands essentially for the distribution of geological knowledge. It affords an opportunity to geologists to study the conditions of other countries and in that way harness up the general conditions of the earth. In short, it is a scientific clearing house for geological matter. This is its twelfth session, and as stated, its first visit to Canada. It has been in a great many of the European countries, and also in the United States and Mexico.

One might ask what would be the principal feature of the meetings, excursions and studies in Canada. The reply to that is to be found in the agenda of the convention to be held in the East shortly. It is to make a close and personal study of the coal resources of the Dominion with a view to endeavoring to estimate the coal reserves of the earth. This particular study has formed the basis of the work of the Congress in different parts of the world for the past three years, and it is hoped to glean very valuable information from the many rich deposits in this country, and particularly in this Province. The Geological Survey of Canada is in a position to render the Congress every assistance in this matter, for it has been working upon it for a considerable time. Mr. Clapp, the gentleman referred to above, is at present stationed in this Province conducting a series of investigations along the line suggested. Yesterday he met Mr. Leroy, who has just arrived from Ottawa, in order to make the necessary arrangements for the coming visit of the members of the Congress assigned to visit the Western Provinces.

As befits the occasion, a Canadian is president of the Congress this year, Dr. F. D. Adami, professor of geology at McGill University, has this undoubted honor, and another prominent Canadian, Dr. R. W. Brock, director of the Geological Survey, will conduct one or other of the parties to the West. Many European geologists of note will make the trip to this Province, and not the least interesting figure will be Dr. Alfred Harker, of Oxford University, who has done a great deal in Great Britain to familiarize the public with the work of the Congress.

OFFICIALS RIDICULE STORY

Subsidiary of United States Steel Corporation Not Accorded Monopolistic Privileges

OTTAWA, July 11.—A remarkable story from Detroit that the Canadian Steel Corporation, the subsidiary of the United States Steel Trust, located at Ojiway, near Windsor, has been accorded monopolistic privileges, has no foundation in fact, according to Government officials here. The company was not incorporated by legislation, but by the ordinary process of letters patent. It was given authority to buy out similar concerns. A like clause is in every company charter. A restaurant concern incorporated last week has such power, but it is not suggested that this is the beginning of a food trust.

Should the United States Steel Trust wish to acquire all the steel concerns in Canada there is nothing to prevent it doing so, assuming the latter wish to sell out. No legislative authority is required nor are letters patent necessary. In the improbable event of such an amalgamation, however, there would be a liability of prosecution of the combine operated in restraint of trade. The penalties run in the thousands and already there has been a prosecution under the combines act of the United Shoe Machinery Company.

There is no idea in Ottawa, however, that the United States Steel Corporation proposes to buy up Canadian companies or that the latter wish to sell out.

THE two-button sack style with long lapels is exemplified in all its grace and sprightliness in the 20th Century Brand model here illustrated. It is distinctly the young man's favorite, and, when tailored in the smart new weaves, it is the last word in modish attire for the good dresser.

FIXING PROGRAMME FOR NEW ZEALAND

Formal Welcome and Initial Entertainments Agreed Upon —Co-Operation of Motorists Requested.

With the announcement of the definite dates upon which the battle cruiser New Zealand will be in Victoria waters, it became possible for those interested to complete arrangements for the programme of welcome and entertainment to be accorded the ship and her personnel of officers and men. With this end in view, Premier Sir Richard McBride met Mayor Morley, as head of the civic interest, and Mr. Randolph Stuart, hon. secretary of the Carnival organization, at the Parliament Buildings yesterday, and drew up a list of events in connection with the ship's arrival.

The first item on the programme will be the greeting of the New Zealand, and in this connection it may be stated as definitely decided that the first word of welcome for the captain and officers of the vessel will come from Hon. J. D. Hazen, Minister of Marine and Fisheries, in his capacity of Federal Minister charged with naval affairs. He will be followed by Premier Sir Richard McBride, who will, of course, speak on behalf of the Province of British Columbia, and then Mayor Morley will conclude the series of welcome speeches on behalf of the Capital City.

Should the hour of arrival prove auspicious for such a thing, it is intended to take the officers and men of the ship off on a motor drive round the city and environs, with a view to letting them have a first glimpse of the part where they will be stationed during Carnival Week. Then, in the early evening, at 7 o'clock, to be exact, a dinner will be tendered the officers in the Empress Hotel, under the joint auspices of the Government and the city. This function will, of course, be attended by the Hon. J. D. Hazen, Sir Richard McBride and his Cabinet, and probably a number of Provincial members of Parliament, the Mayor and Aldermen of the city and a number of the leading citizens.

Following hard upon this function will be the public reception, to take place on the magnificent lawns in front of the Parliament Buildings. This feature is scheduled to commence at 9 p.m., an admirable hour, and it is likely to be largely taken advantage of by the citizens. While this entertainment is going on, the sailors will be enjoying themselves at one of the local theatres, as arrangements are now being made towards this end. The men will receive passes. That will bring Friday, the day of arrival, to a satisfactory close for all concerned.

Motor Car Trip.

On Saturday a diversified programme has been arranged. In the forenoon the officers of the ship will be taken over the Malahat Drive in motor cars and shown tracts of the wonderful scenery of the country tributary to the city. The party will go as far as Shawnigan Lake, where a halt will be called for luncheon. In the afternoon there will be an international cricket match played between teams representative of the ship's crew and local talent.

The evening has been divided. In the first place the Hon. J. D. Hazen intends to give a reception, and in the second place the public amusement resorts will be thrown open to the men. The B. C. Electric Railway will be consulted with regard to granting the men various privileges in the Gorge Park. In regard to the general entertainment to be provided, it is requested that the owners of motor cars will be as liberal as the occasion demands and co-operate with Mr. Randolph Stuart in having an adequate supply of vehicles, not only for the scheduled features but also for the number of impromptu excursions that are likely to be inspired by the arrival of the Jack Tars. Suitable entertainment for the return of the ship for Carnival Week is now being considered.

In connection with the ship's arrival it should be of some importance to Carnival and other enthusiasts to note that the C. P. R. has arranged to run the Princess Charlotte with a load of passengers out to meet the incoming vessel. In addition to this it is expected that a flotilla of small craft will form part of the escort.

Ship's Force.

Officers and men of the battle cruiser are: Captain Lionel Halsey, Commander H. E. Grace, Lieutenants E. R. Jones, D. B. N. North, R. T. Down, A. A. Lovett-Cameron, G. W. Walker-Jones, R. C. Garsia, A. D. Boyle, J. S. Bovill, Lieutenant (Royal Naval Reserve), C. Gore, Engineer Commander J. H. Turner, Engineer Lieutenants J. D. Grieve, E. McK. Phillips, H. G. Marshall; Captain (Royal Marine Artillery), H. Blownt, Chaplain Rev. J. H. Scott, M. A., Fleet Surgeon C. H. Rock, Staff Surgeon J. R. A. Clark-Hall, Staff Paymaster F. P. E. Hanham, Sub-Lieutenant P. D. Bancroft, H. S. H. Prince George of Battenberg, Assistant Paymaster A. C. A. Janion, D. R. Thurston, Midshipmen A. G. Cunard, Lord Burghersh (eldest son of the Earl of Westmorland), C. B. Graham-Watson, P. B. V. Heard, A. H. C. Barlow, H. B. Anderson, C. G. Vyner, The Earl of Carlisle, G. T. A. Scott, T. A. W. Robertson, J. C. Armstrong, O. J. L. Symons, A. L. Poland, C. S. Miller, C. F. B. Bowlby; Gunners J. H. Mack, J. C. Willis, V. S. Robinson; Boatswains S. C. Legg, W. J. Reynolds, W. R. Head; Signal Boatswain A. Lewis, Royal Marine Gunner A. E. Elliott, Carpenter R. Isitt, Artificer Engineers J. Lamond R. K. Weir, P. R. Brooker.

Spaniards Defeat Tribesmen

TEUTAN, Morocco, July 11.—Heavy losses have been inflicted on the Morocco tribesmen by the Spaniards. Six native villages were razed and large quantities of arms and munitions captured.

Belford Goes to Athletics

SEATTLE, Wn., July 11.—Pitcher "Butch" Belford, formerly of Vancouver, and now of Tacoma, will go to Philadelphia Athletics at the end of the season. Connie Mack has made an offer for him, and McGinnity intends to accept.

NEWS OF THE CITY

Belmont Avenue Picnic—The annual picnic of Belmont Avenue Methodist Sunday School will be held this afternoon at Macaulay Point. The children will assemble at the Fernwood carline terminus at 1 p. m., and will return to the city at 6 o'clock.

Fruit Manual—The Vancouver Island Development League has received several inquiries for its latest issue—Mr. G. Heatherbell's book on fruit growing. Twenty-four slides, besides photographs and literature, have been supplied to Mr. E. Baynes, who goes back to lecture on the Province in England.

Migration of Indians—The C. P. R. wharf continues to be the scene of numbers of small bivouacs of Indians on their way to take part in the fishing or fruit-picking on the Mainland, and in many a corner of the harbor and over on the shores of the old reserve other parties are living in their boats.

Greatest Game of All—So keen are the 88th Fusiliers since their taste of manoeuvres in the open field ten days ago that there is talk of a tactical demonstration coming off this week-end between two companies on the Saanich Peninsula. In addition to the value of such manoeuvres from the tactical point of view, there will be the added advantage that the troops will be making themselves familiar with every inch of ground that could be utilised in the defence of Victoria.

Second Battalions—The Militia List published in June contains for the first time the second battalions of each infantry regiment and the officers who are on the regimental reserve. All the rank and — who have done their three years in each battalion, and who have resigned, are all liable to be called upon on mobilization to form the second battalion under the officers of the Corps of Reserves. If these are not sufficient to form the battalion, the Civilian Rifle Association will be drawn upon to make up the numbers, as its members, on joining, have all taken an oath to serve if wanted on mobilization.

Explosives Act — With a view to studying the conditions under which explosives are manufactured in this Province, and of meeting the manufacturers and discussing with them the terms of the proposed Explosives Bill which the Government intends taking up at the next session, Mr. J. Hudson, of the Department of Mines, Ottawa, is now in the city. His business is to investigate the conditions of manufacture at the various explosive factories, and to incorporate his information in a report to be submitted to the Government upon his return. He proposes staying here for a few days, during which time he will get into touch with the management of the concerns operating on Vancouver Island. The bill is aimed solely at securing a greater measure of public safety in the matter of manufacturing explosives.

Y.M.C.A. BOYS LEAVE FOR ALBERT HEAD CAMP

Fortnight Will Be Spent There—Scouts to Go to Cowichan Lake on 19th

This morning, at 9 o'clock, Mr. George Watson's launch starts from the Empress steps with Mr. A. E. Hughes, Mr. E. Crompton and twenty-nine Y. M. C. A. boys on their way to their Summer camp on Mr. Trotter's farm at Albert Head, where they anticipate spending a great fortnight in the open air. Mr. Hughes stated last night that a good cook has been secured to go with them, while the kit and everything else, including a piano, goes down on a three-ton truck by road. Invitations are extended to parents and friends to visit the camp on Wednesdays and Saturdays, and to make the way easy, a service of motor cars has been arranged for on those days. A car leaves at the Y. M. C. A. at 10 a. m., and another at 4 p. m., both returning from the camp at 7 o'clock in the evening. This camp is also easily reached by water, the distance being some four miles as the crow flies from the harbor to Higgs' Landing, which adjoins the camp.

On July 19 the 4th Troop of Boy Scouts (Y. M. C. A. troop) will go into camp at the south end of Cowichan Lake, where they will remain for a week under Patrol Leaders Heyland and Laundy, and on the 28th Mr. A. O. Hughes will travel up from the Albert Head camp to join in the tramp down to Goldstream via Duncan. At Goldstream they will spend several days in company with the Fairview Troop from Vancouver, and then, on their return to the city, will go into camp at Beacon Hill Park during Carnival Week.

MAKES QUICK DESCENT

G. Martin, in Hydro-Aeroplane, Volplanes From Height of 700 Feet to Surface of Lake Michigan

MUSKEGON, Mich., July 11.—Glenn Martin's steady nerve and perfect control of his hydro-aeroplane, in which he is making the Chicago to Detroit cruise, probably saved his life late this afternoon when the machine developed carburetor trouble and he was forced to make a quick descent in Lake Michigan.

Martin, with his passenger, Charles Day, was flying about seven hundred feet above the water when the air valve dropped from the carbureter. Martin volplaned to the surface of the lake, making a perfect landing about two and a half miles from the shore. In a few minutes he started his engine again and reached shore under his own power. Martin declared his machine was not damaged and that he would resume his journey at 7:30 tomorrow morning.

Beckwith Havens and Roy Francis, who reached Pentwater this afternoon, will remain there during the night and start early tomorrow morning.

Falls to His Death

WINNIPEG, Man., July 11.—While removing concrete forms at a new building under construction, a laborer named Geo. Wile, lost his balance and, falling into the cellar, was almost instantly killed.

CITY FINANCES

Mr. J. J. Shallcross, President of the Board of Trade, made a very timely and important statement at the quarterly meeting of that body yesterday in regard to the financial condition of the city. His observations are fully reported elsewhere in this morning's Colonist, and all we need say in this place is that they cast a very valuable light upon an exceedingly interesting question. Mr. Shallcross was decidedly optimistic, and he gave very substantial reasons for being so, for he showed by conclusive evidence that the financial condition of the city is absolutely sound, and in getting stronger every day.

In selecting this topic for his quarterly address, the President has done his fellow-citizens very excellent service. There has been much popular misapprehension as to the financial condition of the city, and its effect has been bad, both at home and abroad. The Colonist has always contended for the free discussion of matters of this nature, because it has never believed that there was anything to conceal, and has been mindful of the fact that mystery is likely to breed suspicion. We have never been able to convince ourselves that election to the City Council endowed any one with expert knowledge, and we have contended that the affairs of the city are the affairs of the citizens. Mr. Shallcross has pulled aside the veil that has obscured municipal finances from public scrutiny, and we now all know that the outlook, so far from being one to create uneasiness, is very satisfactory, indeed.

It is, perhaps, desirable that we should place a little emphasis upon one point that arose because of a remark by Alderman Cuthbert. The Alderman pointed out that local improvement bonds are not, strictly speaking, municipal indebtedness. This is something more than a distinction without a difference. A local improvement bond is a ten-year obligation, assumed by certain property holders. It is paid off in ten instalments, and hence every year it is offset by payment into a sinking fund of one-tenth of the whole amount with interest. This is a very different thing from a bond chargeable upon the general revenue of the city.

There has been more or less uneasiness among the citizens, and particularly those who may be said to be investors, because of the mistaken idea which has been held in regard to the city finances. We have no intention of inquiring why this idea became general, or who is responsible for its circulation. The great thing to know is that it is a mistaken one, that the city is financially sound, and that we may look forward to a renewal of municipal activity at an early day. We do not know that we feel called upon to subscribe to the opinion that Victoria went ahead with her municipal work a little too fast; perhaps the case would be fully covered by the statement that the great programme of civic improvements was not carried out in as business-like a manner as it might have been.

A PROSPECTIVE INDUSTRY

Among the industries that may be expected to assume large proportions on Vancouver Island is that of fruit-growing for the British market. In the course of a couple of years shipments in cold storage from this port to the United Kingdom by way of the Panama Canal will be possible, which will mean that orchards on this island will be in close touch with the greatest market in the world, a market that cannot be over-supplied, no matter how many acres may be devoted to fruit production. This is a consideration of the first importance and is well worth being taken into account by such persons as have land suitable and ready for orchards.

We have in mind certain parts of Saanich and Metchosin, the Gulf Islands, the country around Cobble Hill and Duncan, the Alberni Valley, the whole region lying along the east coast of the Island. Vast quantities of the finest apples and pears can be grown in these parts of the Island, and a great trade with the United Kingdom may readily be built up. A few years ago people used to ask if there was not a danger of over-production of fruit, but everyone knows that the local demand is by no means fully supplied locally, and it is hardly necessary to do more than mention that the European market will shortly be available to demonstrate the impossibility of producing more good fruit than can be sold.

It goes without saying that fruit-growing on Vancouver Island for the European market must be conducted upon strict business lines and not in a haphazard way. Only those varieties must be grown for which there is a ready sale, and unless fruit is produced in quantity the business cannot be built up. One cardinal principle applies to fruit-growing as well as to any other industry. There is no use in seeking a market for produce unless you have produce for the market. Hence there are two sides to this prospective industry, namely, the producer's side and the vendor's side. These need not necessarily be handled by different people, but both require very careful investigation.

THE MAYOR'S ADVICE

Mayor Morley has given some advice to the School Trustees. He strongly believes that they should spend the money that comes under their administration specifically for the purpose for which it is voted. He even went so far as to get advice from the City Solicitor on the subject, and this he has forwarded to the School Board with a strong recommendation that it be followed. Here is what the City Solicitor wrote:

"As the nature of the buildings is not mentioned in the by-law, I do not think the trustees are prevented from erecting wooden schools, but, as above stated, the entire vote must be expended for the specific purpose specified in the by-law, and if the trustees attempt to use a less sum than the amount voted, and to put up a cheaper class of building or divert the sum voted, so as to cover other purposes than those mentioned in the by-law, I am of the opinion they could be legally restrained from pursuing this course."

We would suggest to Mayor Morley that he practises what he preaches. He has persistently opposed the erection of new headquarters for the police, and yet the citizens have twice emphatically stated that they wish these to be built. A sum of $80,000 has been provided by the people for this specific purpose, but the Mayor refuses to carry out this mandate, twice given. In fact we believe that a portion of this money has already been expended for purposes other than those for which it was voted. When Mayor Morley, in his own particular sphere of action, realizes that the will of the people must be obeyed it will be time enough to adopt the role of self-constituted critic of the actions of the School Board.

THE PAVING PROBLEM

Evidences continue to accumulate of the advantages of a municipality owning and operating its own paving plant. A short time ago we drew attention to the cost of paving patents and the fact that at present municipalities were taxed to a far greater extent than they should be through the laying down of new pavements. The royalties involved in the composition of the materials used very often mean that a municipality has to pay a bonus for the privilege of having the work done by a certain company. If the system of letting contracts for paving were done away with the cost would be greatly reduced, more expedition in the progress of the work would be exercised and we venture to believe that the roads would prove serviceable for a greater length of time.

Calgary has now a municipal paving plant of its own. This plant is laying down 2,000 yards of paving daily and it is said to be of a better quality than any to be secured by contract. The saving being effected amounts roughly to fifty cents per yard. Thus it will be seen that in this department of its activities Calgary is saving a sum in the neighborhood of $1,000 per day. Supposing that it were possible to carry on paving work in a municipality for 250 days in the year, as it would be in Victoria, and supposing the programme were large enough, then the saving effected during the twelve months would amount to a quarter of a million dollars. This should be a very important consideration, although it does not seem to have engaged the attention that it warrants. The experience of Calgary would suggest that the time is ripe for a change of this nature in the different municipalities of the Province. Irrespective of what we have already said it has another important feature in that the municipality would be responsible for the class of labor employed. The policy of giving preference to Canadian and British people could then be carried out without a hitch.

PURIFICATION OF SEWAGE

The discharge of sewage into the sea in the vicinity of Victoria, is a matter of very grave importance. The city engineer appreciates this, and he is endeavoring to ascertain what will be the result of discharging it in quantity in the vicinity of Macaulay Point. This is really a very grave matter. Between McLaughlan Point and Holland Island, which lies a little to the east of Macauley Point, there is a bay, and those who have watched the effect of the wind and tide, know that during the Summer almost everything afloat drifts into that bay. In fact, this is true of almost any time of the year, when there is not an off-shore wind.

As the problem of the disposal of sewage is one of increasing importance, and as it is desirable to avoid any chance of danger or inconvenience from it, we welcome the letter which Dr. N. Newnham-Davis has been kind enough to send us, and which will be found in our news columns. We commend it to the consideration of the city engineer. If such a plan worked at Guildford, there is no reason why it should not work here.

THE POLICE MAGISTRATE

Not the police magistrate of Victoria especially, but any police magistrate of any place. Did you ever think about him? Day after day for a greater or less time, he sits in what, in nine cases out of ten, is an ill-ventilated room, wherein is usually gathered a strong representation of the Great Unwashed, and endeavors to do ordinary justice to a lot of foolish people. He must sift evidence that is too coarse to go through any seive that reason can devise. He must uphold the police, but he must not let their spite or excess of zeal deceive him. He must listen to the verbosity of lawyers, earning a small fee, as a rule, and "seeking the bubble reputation." He must listen to harangues from people who have either not enough money or not enough sense to engage counsel. He must steer a lot of people along a road that will bear some reasonable approximation to the strait and narrow path of justice. He must act as judge, jury, often as counsel, guide, philosopher and friend to people too stupid, vicious, or reckless to know when they are being treated decently. He must make the punishment fit the crime within such limits as the Legislature has seen fit to prescribe, and all these things he must do nearly always in about the length of time it takes a man to shave. There was once a king named Solomon, who settled a squabble between two women, and his fame has for some thirty centuries rested upon his decision, to a very large extent. But Solomon could try tricks, if he wanted to. No legislature had said to him, thus far shalt thou go, and no farther; there was no court of appeal to overturn his judgments; there were no newspapers to which indignant females could write letters of protest. Fancy what would happen in this community if, in the case of a dispute over a dog, our police magistrate should direct our chief of police to prepare to shoot the dog in open court in the hope that the rightful owner would exclaim, "Forbear! Give it to the other fellow." Why, the next morning we would have more letters on the subject than we could get into the paper without working the compositors overtime at a price and a half; the S. P. C. A. would wax wroth, and the chances are that a certain belligerent contemporary would make the incident a ground of attack upon the McBride Ministry, and Mr. Bowser in particular.

There is a story current to the effect that a certain lady asked a certain Lord Chancellor why the House of Lords was always right on questions of law, and his lordship replied: "My dear madam, we have the last guess." When the Akwoond of Swat and the Begum of Boolooloo-lah have a controversy over the custody of some idol that no one would give thirty cents for, very learned counsel argue, and all kinds of books are quoted, and the court takes time to consider; but when Mrs. McFidget and Mrs. Skimvitsky dispute over the ownership of a hen, the police magistrate must settle the issue in about the time it takes you to say "Jack Robinson." And yet the real question in one case may be neither more nor less difficult than that involved in the other. Nevertheless, good sir or madam, you complain if you think the police magistrate, that is, any police magistrate, hews not exactly to the line. If he does not inflict what you regard as condign punishment upon some poor sinner, you do not hesitate to say that he is in sympathy with vice. If he makes your fine for reckless motoring a little stiffer than you think it ought to have been, you think he has a spite against all motorists, and you in particular. We have a certain authority for saying that a policeman's lot is not a happy one, but so far as responsibility goes, he is as free as a bird when compared with the police magistrate.

Some very interesting figures bearing on the safety of life at sea appear in the current issue of Engineering. It is pointed out that the records of the North Atlantic during the twenty years, 1892 to 1911, show that 95,000 voyages were made between Britain and America, and that the numbers who took part in these were 350,000 crew and 9,380,000 passengers. Out of this number of voyages the loss of life was 1,057 crew and 80 passengers. Only one out of 332 of the crews and one out of 117,400 of the passengers did not reach their destination. Of the 1,137 lives lost, 707 were lost in twenty-nine vessels posted as missing, while of the balance 89 were lost in seven cases of foundering; 187 in ten strandings; 9 in six cases of collision, and 195 in 118 cases of accidents on board. A record of this nature makes it appear that it is safer to travel on sea than on land.

LETTERS TO THE EDITOR

The Hindu Question

Sir,—I read that the Hindus are again agitating for the admission of their families into this country.

There are many retired officers of the India army and Indian civilians now residing in British Columbia and some of these are well qualified to express an opinion on the Hindu question. They know the Sikhs (to which community the greater portion of the so-called Hindus belong) well. They have met them in their villages as cultivators of their own land and have fought side by side with them on the Afghan frontier. Not only do they know the Sikhs, but as they knew them in the Punjab and on the frontier, they also love and admire them as fine men, brave and loyal soldiers who have never been known to desert or ever lag behind their British leaders, and who in the dark days stood by us and helped us quell the mutiny.

I would urge through your columns that the Provincial Government appoint a committee to hear what these retired Anglo-Indians have to say on the Hindu question as it affects the Empire generally and this Province and India in particular.

I feel convinced that 100 per cent of these old officers will corroborate what I have said above of the Sikh as we knew him in his own country, and that 99 per cent will also be of my opinion with regard to the "Hindu" as, to my great regret and sorrow, I see and hear of him in British Columbia, but it is not the Sikh who is alone to blame.

J. GAISFORD,
Captain India Army for over six years, adjutant 25th Punjabis, composed mainly of Sikhs.
Westholme, B. C., July 7, 1913.

SOCIAL AND PERSONAL

Mr. F. N. Ewart, of Toronto, is in town.

Mr. F. H. Daly, of Vancouver, is at the Empress.

Mr. and Mrs. R. N. Helme, of Lancaster, England, are staying at the Empress.

Rev. Canon and Mrs. Gardiner, of Folkstone, England, are staying at the Empress on a brief visit to this city.

Miss Nina Scott, of Winnipeg, is visiting her mother, Mrs. R. Stranghan, during July, at 128 Wildwood Avenue.

Mrs. Grgham, of Winnipeg, accompanied by her daughter, Miss Graham, is registered at the Strathcona, on a brief visit to this city.

Miss Morley Ralph left town on Thursday for San Francisco and other California points, and will not return to this city until September.

Miss Isabelle Dickson, who has been visiting her father, Mr. James Dickson, manager of Dominion Life, has left for her home in Winnipeg, after a most enjoyable holiday.

Mr. and Mrs. John S. Sheppard, Jr., of New York, accompanied by Mrs. Ramsay and Miss Ramsay, arrived in town on Thursday on a sight-seeing tour of Canada, and are registered at the Empress.

On Wednesday, July 9, the marriage took place at Belmont Avenue Methodist Church of Mr. William Frderick Emery and Miss Doris Grace Ridley. The ceremony was performed by Rev. B. H. Balderston. The happy couple left for a tour of the Sound cities, and on their return will make their home on Gladstone Avenue.

Rev. C. C. Owen, rector of Christ Church, Vancouver, whose recent serious accident was so deeply regretted by his many friends all over the Province, arrived in Victoria this week accompanied by Mrs. Owen to spend two or three weeks at Dr. A. P. Proctor's house at Finnerty Bay. Later on Rev. Mr. Owen will take a prolonged holiday, either traveling South or going on a sea voyage, whichever his doctors advise.

The marriage of Mr. Sidney Charles Jackson and Miss Annie May, daughter of Mrs. Whiteside, and sister of Mr. A. S. Whiteside, manager of the Dominion Wireless station, Gonzales Hill, took place there on Wednesday at noon, Rev. Dr. Clay officiating. The bride was married in white, with the orthodox veil and orange blossoms. The happy pair are spending their honeymoon visiting different parts of the Island. The groom is also connected with the wireless station.

MR. GLEASON EXONERATED

Magistrate Dismisses Charge of Theft Laid Against Groundsman of Ball Club

Edward R. Gleason, groundsman for the Victoria Baseball Club, was completely exonerated by Magistrate Jay yesterday morning of any blame in connection with Mrs. Barrington Foote's loss of a quantity of rugs and other goods.

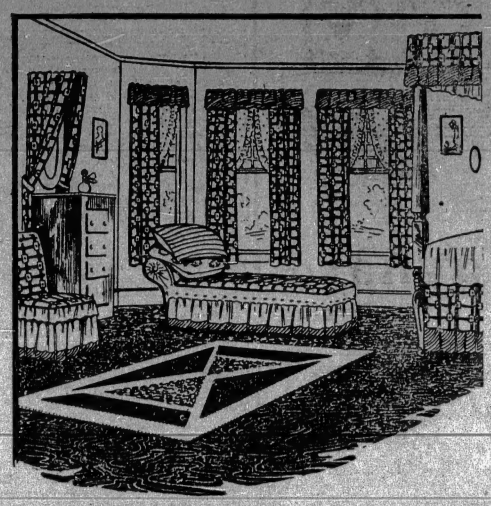

Mr. Gleason was accused of their theft, a warrant for his arrest being secured while he was in Seattle. Being informed, he immediately came to the city and gave himself into custody. The hearing proved that he had been mistakenly involved in the loss of some property used in connection with the production of the "Fire Marriage of the Rani" at the Royal Athletic grounds some weeks ago.

It seems that the performance was not a financial success, and that the majority of those identified with the company were looking for their money on the last day of the show. At this time, Mr. Gleason explained, some canvas and bunting had been given him by Mrs. Howe, Mrs. Foote's manager. The rug which had been found on his premises, was picked up on the grounds. Mrs. Gleason would not allow it to be brought into the house, and it was hung on the line in the yard. The evidence of the officers who searched and found the property, was of a corroborative nature. Magistrate Jay said that there was no evidence whatsoever to justify a conviction, and the case was dismissed.

The German army has been supplied with a number of automobiles carrying motorcycles in pockets for use should the cars become disabled.

Handsome Scotch Carpets and Dainty Lace Curtains

See the Broughton Street Windows

So important a part in the decoration of the room is played by the lace curtain that many housekeepers devote an unusual amount of time and care to the selection of patterns and grades.

As our showing includes all the most artistic patterns made by the leading Scotch, English, German, Swiss and American manufacturers, and the prices range from 75c a pair up to the most expensive patterns imported, the showing should prove unusually interesting to you.

Scotch Carpets, in new and most artistic designs suitable for the parlor, nursery, bedroom, or any other room where a dainty effect is desirable, are now being shown in the department and windows. Durability, economy and daintiness are well combined in these carpets. See them and you'll agree that they are values well worthy of your consideration.

Sundour Unfadable Fabrics—the Best Drapery Materials You Can Buy

One glance over the samples now being shown in our Broughton Street windows will convince you that for dainty colors, choice designs and rich effects, these fabrics are second to none.

We guarantee the colors to be absolutely fast. Even the strongest sunlight and the most severe washtub test will not move them.

As to the wearing quality of these fabrics, we have no hesitation in saying that they are far superior to the average window drapings, but cost no more.

Let us show more of them to you today.

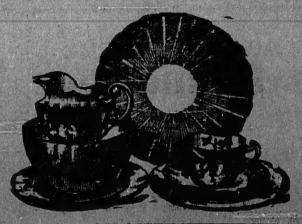

Pretty and Serviceable Dinner Sets of 95 Pieces for $22.50

Better than illustrations and descriptive matter is the showing of the sets now in our Government Street window.

These sets are made of the finest English semi-porcelian and are the product of Alfred Meakin, Tunstall, Staffordshire.

New shapes, pretty color combinations, dainty designs and splendid finish are features that immediately command attention. Price, per set..... $22.50

A Few Odd Tea Sets Marked at Reduced Prices to Clear

If we could repeat the patterns, these sets would never have been reduced in price. They are the last we have of the patterns represented, and as each set is short of one or more pieces, we have made a liberal reduction to clear the line. Ask to see them.

—Main Floor

One of the Most Useful Articles in the Home

There is not the slightest doubt about the statement that the cost of food wasted in the average home, in one season, is more than the cost of a good refrigerator that will last for many years.

Strong sunlight and heat quickly ruin good food; makes your butter an unpleasant mess, and you are never sure how long your milk will keep unless it is kept in a reliable refrigerator.

Sizes for large or small families here at prices starting as low as $12.00 and ranging up to $70.00. A discount of 10 per cent for cash or easy terms may be arranged.

May we deliver one to your home today?

EFFORTS TO SECURE FACTORY DISPLAY

Made-in-Victoria Exhibit Explained to Members of the Board of Trade—Committee Makes Satisfactory Report.

One of the most important of the many questions discussed at yesterday afternoon's quarterly meeting of the Board of Trade was that of securing a Made-in-Victoria exhibit for the Victoria exhibition.

The debate arose out of a report received from the manufacturers' committee outlining what has been done towards interesting local manufacturers in the movement and explaining the present difficulty of securing the funds necessary for the construction of the building that is needed at the fair grounds for the accommodation of the proposed display.

Committee's Report.

Following is the complete report:

To the President and Council, Victoria, B. C. Board of Trade.

Genilemen,—Your committee on manufactures beg to report that in accordance with your instructions we waited on the finance committee of the Corporation of Victoria and asked for funds for the construction of a building for a display of "Made-in-Victoria" products and estimated to cost about $10,000.

We were informed that the condition of the city finances does not warrant expenditure upon any new works.

We then pointed out that in this case the work would be productive, as from 25 per cent to 30 per cent of the cost of the building would be paid for space by this year's exhibitors. We also presented an offer from a member of this Board of Trade, Mr. J. C. Cameron, on behalf of the Cameron Lumber Co., to supply lumber and cash for labor on the building to the value of $5,000 upon the corporation undertaking to pay on or before 31st December, next. This, also, was without avail, and we considerered it injustice to proceed further in that direction.

We are nevertheless strongly of opinion that further steps should be taken to meet the demands of the manufacturers for a thoroughly comprehensive exhibit of "Made-in-Victoria" products this year, and it should be mentioned that your committee in asking for only one building have based space requirements at a minimum. Your committee having referred to the building as a source of revenue, would also call attention to the "Made-in-Victoria" exhibits as an extra attraction to the Fall fair and to the increased gate receipts which will result therefrom. Further, the advertising and exhibiting of these "Made-in-Victoria" products will naturally lead to increased demand for them, and incidentally the employment of more hands in the various factories.

For these reasons it is now proposed to ask the B. C. Agricultural Association to undertake the construction of the building required, and but for the absence from the city of the president and secretary this would already have been done.

(Signed)
W. A. JAMESON,
GEO. AGER,
R. W. PERRY,
W. H. LOGAN.

Importance of Exhibit.

Mr. R. W. Perry, one of the committee, gave a verbal account of what had been done in the course of which he severely criticised the lack of public spirit displayed by some of those who had been asked for support. However, he asserted that the majority of those approached had expressed, not only willingness, but the keenest delight at the opportunity to show their goods.

Mr. Perry ventured the prediction that, if the show is arranged this year there will be a great many Victorians agreeably surprised to see the variety of commodities produced in this city. He said that in working up the proposal among those interested in factories here it was a revelation to find how much is manufactured in Victoria of which comparatively nothing is known.

That the city had been unable to extend the financial aid required to provide the building Mr. Perry thought was very unfortunate. However, hope had not been abandoned. The importance of the project was realised, and he had no doubt that a way would be found out of the difficulty in time to allow the structure to be completed for the forthcoming show and the "Made-in-Victoria" exhibit constitute one of its features.

A short address along the same lines was given by Dr. Tolmie, president of the B. C. Agricultural Association, who dwelt on the importance of such an exhibit to the city. He emphasized the interest such a display must have for those who take a pride in the commercial possibilities of their home city, and its value as an advertising medium. Through it strangers would learn what it is possible to manufacture here. Their attention would be directed to the commercial possibilities of the centre, and the result might be expected to be material in increased industrial activity.

He spoke, in this connection, of the amount of financial support the Vancouver exhibition receives at the hands of the city, having only recently been given an additional grant of approximately $150,000. Dr. Tolmie told of the futile conference with the finance committee of the City Council and of the subsequent meeting with the Provincial Government. The representatives of the latter, he said, had given careful attention to their plea, and he believed that, when supplied with figures that had been prepared, would make some appropriation to aid the contemplated exhibition innovation.

The report was adopted.

President's Address.

As is usual, President Shallcross, in opening the meeting, gave a summary of the business accomplished in the past quarter. He spoke of a conference with [illegible] Railway officials in April when the assurance was received that there would be communication between the terminal of the proposed Howe Sound railroad and Victoria. The question of the adjustment of western railway freights also had been taken up before the Board of Railway Commission, but there was no final decision. In this connection a letter had been received from Mr. W. A. Macdonald explaining the present status of the matter. Reference was made to the recent calling at Victoria of two large new liners, the steamship Niagara and the steamship Empress of Russia, both of which were extended a hearty welcome. That the water at the Outer Wharves is being deepened for the accommodation of large vessels, that the mail service between Victoria and Port Alberni had been greatly improved, and that certain recommendations had been made for needed addition to the Quarantine Station facilities, were facts referred to by the president.

He also spoke of the difficulty recently experienced as to stevedoring rates. The lack of casual labor, he explained, made the cost of handling freight a little more expensive here than in Vancouver. It was a serious situation and was taken up by the board with all those interested. The result was that Mr. R. P. Rithet, the owner of the Outer Wharves, has decided to carry on stevedoring himself and will make the rates to consignees as low, if not lower, than they are on the Mainland.

Mr. Shallcross said that representations had been made that some action should be taken aimed at the practice of allowing aliens to take up land in the province. The position of the board's council on this question was that it was not an opportune time to act. It was doubtful whether the province had jurisdiction. Of course this issue involved Orientals, in fact it was at these peoples those who recommended action were aiming. There was no doubt that an attempt at what was suggested would cause much friction and it was possible that international complications would arise.

The Post Office.

Enquiry had been made into the post office facilities, and the president was glad to report that improvements were being made every day. Some time ago an effort had been made to have special clerks placed on incoming boats so that it would be possible for carriers to leave the post office not later than 8 o'clock in the mornings. While the board's suggestion as to means had not been adopted, it was a keen satisfaction to be able to state that information had been received from the postal authorities to the effect that carriers will be on their several routes at the hour instanced at an early date.

The board was informed of the forthcoming visit of Hon. J. D. Hazen, Minister of Marine and Fisheries, to Victoria in connection with the coming of H. M. S. New Zealand. These gentlemen were told that it is the intention to call a general meeting to prepare a memorial to lay before him and also to accord a fitting reception.

New members were elected as follows: Paul Chaney, H. B. Dennison, John Dilworth, J. C. Dewsnap [illegible]

NEWS OF THE CITY

To Appoint Engineer—Mr. A. B. Ellis, municipal clerk at Esquimalt, is calling for applications, which will be received up to July 21, for an engineer for that municipality.

Egg-Laying Contest—On July 3, during the hours of daylight, pen No. 20 of Buff Leghorns laid eight eggs. This pen of six birds has already achieved a similar feat since the competition began.

B. C. Poultrymen—A meeting of the executive body of the B. C. Poultrymen's Association and another of the delegates will be held on the Exhibition grounds during fair week at Vancouver, when the poultry shows will be allocated and dates fixed.

Fire Hall Improvements—Improvements to the headquarters fire hall will be immediately made. The wooden floor is to be replaced with one of concrete. This work has been let to Messrs. Luney Bros., contractors, who will complete it early next week.

Two Runs for Brigade—A roof fire at the residence owned by Mr. George Hurd, 1123 Johnson Street, called out the fire department yesterday morning at 6:20 o'clock. Practically no damage was done. A grass fire at Beacon Hill Park at 1 o'clock, also required attention.

Colonel Egan Dead—Pioneer newspapermen throughout the Province, and along the Pacific Coast, will hear with great regret that Col. J. G. Egan, for many years connected with The Rossland Miner, is dead. He was a brother of Martin Egan, formerly Associated Press correspondent, and now newspaper proprietor at Manila.

Building Progress—Building permits were issued yesterday by the building inspector to Mr. G. C. Emmett for a dwelling to be erected on Beechwood Street, to cost $2,700; to Mr. L. Gardener, additions to dwelling on Fairfield Road to cost $600; to Messrs. P. Burns & Company, additions to cold storage plant on Store Street, $1,000.

Utilizing a Holiday—Mr. H. E. Upton, assistant poultry instructor of the Department of Agriculture, is away in the East on a three-weeks' holiday. While there he will visit the Ontario Agricultural College, Cornell University, Mcdonald University and the University of Maine, making in each case a study of the methods in use at each place.

Additions to Hotel—Extensive alterations to the St. George's Inn, Esquimalt Road, to make the premises comply with the new liquor regulations, which come into force in January next, will, be made at once. The cost of the work will be $6,000. The necessary permit was issued yesterday by the building inspector to Messrs. Anderson & Fraser.

B. C. Poultry Exhibit—Entries have come in so well for the carload of poultry which is to be on exhibition at the Edmonton show this Summer that now only forty-five crates are required to complete the full tale. Only young stock is being sent. The car will pick up Island birds at Vancouver, Okanagan birds at Sicamous and Kootenay birds at Revelstoke.

Will Fix Assessments—The local improvement Court of Revision will meet next Wednesday morning at the City Hall, when complaints against assessments levied under a number of local improvement by-laws may be presented. As soon as the assessments are passed the debentures authorized by the by-laws may be issued and placed upon the market for sale.

Harbor Pollution—To consider the subject of harbor pollution, regarding which the city medical health officer recently submitted a report to the City Council, the special Council committee, composed of Aldermen McCandless and Humber, will meet next Tuesday afternoon at 4 o'clock. The city engineer, medical health officer and sanitary inspector will be present.

Okanagan Crop—Advices from the Okanagan point to the fruit crop in the valley this year reaching about the same tonnage as the crop for 1912. A large proportion of this year's crop will be handled by the Okanagan Fruitgrowers, a central selling agency organized this Spring by Mr. W. E. Scott, Deputy Minister of Agriculture, and Mr. R. Robertson, who is now general manager of the company.

Manager at Montreal—The Bank of British North America announces the appointment of Mr. George B. Gerrard, first agent of the bank in San Francisco, to be manager at Montreal, in succession to the late Mr. Arthur P. Hazen. Between the years 1907 and 1910, Mr. Gerrard, who is well known in Vancouver, was manager successively of Kaslo, B.C., Winnipeg and London, Ont. In December, 1910, he was appointed first agent of the bank in San Francisco.

Life-Saving by Women—This morning at 10 o'clock at the Y.M.C.A. swimming bath the class of ladies who have been taking the course of instruction given by Mr. R. M. Pomfret in life-saving methods, will be examined for proficiency certificates and the bronze medallion, by Dr. Donald and Mr. C. Hopper, members of the executive of the B. C. branch of the Royal Life-Saving Society. This is the second class of ladies whom Mr. Pomfret has instructed, and he is to start a third next week.

Motor Car Fines—Cases heard in the police court at Oak Bay were a charge of driving a motor car without side-lights bearing the car's number, against Mr. G. Bannerman, and another of exceeding the speed limit, against Merchants' Trust and Trading Company. In Mr. Bannerman's case the magistrate considered that a light fine would meet the situation, as the car had been sent out by a garage without the numbers, and a fine of only $5 was inflicted. In the second case the defendants pleaded guilty and had to pay $20.

To Take Photographs—Mr. Dundas Todd, of Victoria, has been commissioned by the Provincial Government to take a number of photographs depicting the salmon-canning industry at Steveston. A good series of views of this kind have not been taken for some years, and the authorities are desirous of bringing their collection up-to-date. Mr. Todd enjoys the distinction of having taken the longest-range photograph in the world. He successfully photographed Mount Baker from Victoria, ninety-five miles away.

Studying Conditions—Councillor Henry Kitchen and H. W. Gill, of Grimsby, England, are due here in a few days. Councillor Kitchen is taking a trip through the country for the purpose of pleasure, and Mr. Gill is investigating labor conditions for emigration purposes. He represents a firm of passenger agents in Grimsby for the Great Northern Railway Company, driven by pressure of public demand into emigration business. He is making the trip that he may gain some knowledge that will be of service in advising intending emigrants.

Hair Seals a Pest—The fishermen on the Fraser are of the opinion that some steps should be taken to have the hair seals, which are so numerous just now, destroyed, as they are doing away with a large number of salmon. The seals eat the fish after they become caught in the nets, and when fishermen take up their nets they generally find a large number of salmon heads and two or three fish. What would otherwise be a profitable catch turns out to be worth only about 75c or $1. This amount is all that some receive for a night's labor.

Poultry Stations—The Department of Agriculture not long ago provided pure-bred poultry stock, which they placed in the hands of reliable poultrymen in several of the more out-of-the-way districts of the Province on the condition that sittings of eggs should be sold to the neighboring settlers at a fixed minimum price. Now the news comes from Ucluelet that settlers there have succeeded in hatching out fifteen chickens from the fifteen eggs sold them by the poultry station there. By this means it is hoped to stimulate the production throughout the Province of good laying strains.

Dominion Agriculturist—Mr. J. R. Terry, chief poultry instructor of the Department of Agriculture, is expecting a visit next week from Professor F. C. Elford, Dominion Poultry Husbandman, of the Central Experimental Farm at Ottawa. The professor and Mr. Terry will pay a visit to the experimental farm near Sidney, where the breeding of poultry will be entered upon extensively, the Dominion Government realizing to the full the importance of this industry to settlers on the Island, and also the exceptionally favorable climatic conditions under which it is carried on here.

Joint Grocers' Picnic—The retail merchants of Victoria have accepted the invitation of the retail merchants of Vancouver, Eburne, Chilliwack and New Westminster for a joint picnic at Queen's Park, New Westminster, on Wednesday, July 30, in which it is anticipated the retail merchants of Duncan and Nanaimo will join. The steamer Princess Sophia has been engaged, and will leave Victoria at 8 a. m. on the 30th, returning from New Westminster, 6 p. m., on the same day. A fine band has also been engaged for the trip. To prevent crowding, the number of tickets will be limited.

Agricultural Commission—The main body of the Royal Agricultural Commission has proceeded to Fort George. The commission has just completed a series of sittings at Salmon Arm, Cranbrook, Windermere, Wilmer, Golden, Elko, Revelstoke, Armstrong, Enderby, Kelowna, Summerland, Penticton, Keremeos, Rock Creek, Midway, Greenwood, Grand Forks, Rossland, Trail, Nakusp, Edgwood, Slocan, Nelson, Kaslo, Creston, Ashcroft and a number of other places. It is the intention now to hold a number of meetings in the Fort George District, and then the commissioners will go to Prince Rupert. Commissioners Campbell, Kidston, Cleriston, Shannon and Duncan are the members going to Fort George.

Seamen's Institute—At a special meeting of the Ladies' Committee of the Seamen's Institute held yesterday in the Empress Hotel, with the president Mrs. Jenkins, in the chair, it was announced that the committee had rented a house at 104 Toronto Street, to be used as a temporary Seamen's Institute. The house is a good sized one, and the ladies are busily engaged in furnishing it. It is expected that it will be ready for use by the end of next week. It contains a reading room, dining room and reception room, and one bedroom will be furnished to be used in case of emergency. Mr. T. Wright Hill, port missionary will also have his quarters there. A handsome lounge has been donated by Mrs. Pemberton, and it is fully expected that when complete the house will present a comfortable and homelike appearance.

A Banner Year—In the three months, April, May and June, 1913, no less than 240,000,000 feet of logs were scaled by the Government's scalers on the Coast district. This is a gain of 22,000,000 feet over the quantity scaled for the corresponding quarter of 1912, when 218,000,000 feet were measured, and establishes a record. In other words, the logging operations so far this year have been greatly in advance of those of any previous season. The reports from the interior districts are not yet to hand, but a proportionately large increase is looked for there also. "This has been a banner year for logging," declared Mr. G. D. McKay, the Government timber inspector. "There has been great activity in the northern Coast district, and visits I have made up the Coast have convinced me that there will be a continued expansion." Several communications have been received at the timber office recently from big firms, both Canadian and American, which purpose acquiring property, and proceednig with operations on the Coast and Vancouver Island.

THE WEATHER

Meteorological Office, Victoria, B. C., at 8 p. m., July 11, 1913.

SYNOPSIS

The barometer is falling rapidly to the southward, and intense heat is reported in Oregon and California, while in this Province fine, moderately warm weather is general. High winds and heavy rains continue in portions of the Prairie Provinces.

POLICE SURROUNDING BANDITS ON ISLAND

Posse, Aided by American Officials, Have Union Bay Robbers Cornered on Orcas Island.

With the certainty that their quarry is in hiding on Orcas Island, a posse of Provincial police officers, headed by Chief Constable Stephenson, of Nanaimo, and assisted by United States officials, is keeping watch at every likely point of escape in the hope that within the next few hours they will apprehend at least one of the two bandits who, last Friday afternoon, held up and robbed two bank clerks returning from Union Bay to Cumberland, of $2500.

On Thursday the Provincial police head, Superintendent Campbell, received word that the boat stolen from Union Bay had been found on Orcas Island, and a man answering the description of one of the robbers had been seen. He immediately communicated with Chief Constable Stephenson, who had gone to Ganges Harbor from Nanaimo. That officer immediately left in a launch for Orcas Island. Constable Stephenson, son of Chief Constable Stephenson, and Constable Hannay, left Nanaimo Thursday evening, arriving in Victoria at 11 p. m. and left at once by launch from here for the same island.

Last evening Superintendent Campbell received word that these officers had reached Orcas Island early yesterday morning, and the man-hunt after the fugitives is progressing in earnest. With the deputy sheriff of the district and several of his aides, the Provincial police have formed a cordon around the greater part of the island, and no effort will be spared to locate the bandits. The boat found at the island has been identified by the police as that which was stolen from near Union Bay immediately following the hold-up of the bank clerks. Word has been received here that after the pair landed at Orcas Island on Tuesday, one of them, the bandit whose description as given by the victims shows that he is lame, was seen by the deputy sheriff. The latter, knowing he was a stranger and suspicious of his appearance, approached him, but was fired on by the other, who immediately ran into the bush and disappeared. The deputy sheriff returned the fire, but whether his shot took effect or not is unknown. Since then nothing has been seen of the bandit, and whether his companion is still with him on the island or had got away before the police officers arrived early yesterday morning is a mystery. If he did he must have secured some other boat, as that in which they got to Orcas Island is held by the police.

The course followed by the bandits from the time they left the scene of the hold-up until they arrived at Orcas Island is pretty well ascertained by the police. After setting out from near Union Bay in their boat they encountered bad weather south of Lasqueti Island, and were taken in tow by some fishermen in a launch. Their boat was towed to the Mainland near Vancouver. From that point they secured provisions and set out again on a southerly course, reaching Orcas Island on Tuesday afternoon.

YOUNG THIEVES ARRESTED

Youths Who Broke Into Victoria West Store Have Also Rifled Camps at Gorge

Charged with breaking into and entering the store premises of the Burridge Mercantile Co., 810 Catherine Street, on Thursday evening and with stealing from campers at the Gorge, two guns, a clock and a quantity of jewelry, Owen G. Long, aged twelve, and Sidney Button, aged fifteen, were arrested yesterday morning by Detectives Turner and Edens. They will be arraigned this morning.

The lads confessed to their attempt at robbing the Burridge Mercantile Company's store. They secured entrance through a rear window, which they smashed, but they did not take anything away. The campers at the Gorge were robbed while they were absent from the tents.

The boys also admitted having recently stolen a boat belonging to Mr. P. A. Mulkley, Rock Bay Avenue. They took the boat up the Inner Harbor and tied it up. When they came back for it it had disappeared, someone else having purloined it.

DAIRY CATTLE FROM EAST

Livestock Commissioner for Province Returns From Trip to Purchase Animals for Farmers of B. C.

Professor W. T. McDonald, who has been traveling many thousand miles through the Dominion during the last few weeks in search of good dairy cattis for the farmers of British Columbia, returned to Victoria yesterday. He reports that he has obtained a good quantity of good grade dairy cows, with Holstein blood predominating. These will not be shipped until the weather becomes cooler, but then will be sold by auction at different centres in the Province, and will serve to take the place of those cattle which re-acted to the tuberuiln test and have had to be destroyed. Professor McDonald speaks of experiencing great heat everywhere east of Winnipeg, and expresses relief at returning to the squable and comparatively cool air of Victoria. With the shortage of stock which was apparent in most provinces his task has been by no means an easy one, but he is satisfied that he has obtained a class of animals which will improve the dairies of this Province.

In 1904 there were 973 artesian wells in Queensland. At present there are about 1400 bores.

Baby Cars 144 Fort Street

NEWS OF THE CITY

Meeting of Sisters—A large gathering of Roman Catholic sisters, members of religious and educational orders, is now being held at Washington, D. C., being one of the most important gatherings of its kind held on this continent. Two of the sisters of St. Ann's Academy represent Victoria. About 400 sisters are present.

Inspector Perdue Improving—The many friends of Detective Inspector George M. Perdue, will be pleased to learn that he is progressing well, following the operation which he underwent nearly three weeks ago at Rochester, Minn., whither he went to be operated upon by the famous Drs. Mayo. A telegram received here yesterday stated that he is doing well, and it is expected he will be able to be up and about in a few days. At first his condition was rather serious, but he has since shown great improvement.

Carnival Arrangements—The Automobile Dealers' Association of this city have decided that each dealer will place a decorated car in the Carnival parade next month, also a float will be constructed to represent the association as a whole, and the Victoria Automobile Club will enter a float as well. The list in regard to the order of the horse parade will be announced in a day or two and the prize list. The entry time limit has been extended until the 25th of July instead of the 21st, and entries may be sent to either Secretary McCallum or Mr. Randolph Stuart, P. O. Box 1311.

Case Is Settled—At yesterday morning's session of the police court, the charge of theft laid against Mrs. A. E. Green by Mr. Frank Crouch, was withdrawn. Mr. E. E. Wootton, acting for Mr. Crouch, informed the Court that the trunk had been returned intact. Magistrate Jay would not agree to allow a suspension of such a serious charge without the Attorney-General's consent. This was secured, and the case was dismissed. While the matter was not mentioned in court, Mr. W. R. Vaughan, counsel for the defence, is authority for the statement that the $20 account, as security for which Mrs. Green claimed she was holding the trunk, was paid.

Dice Sharpers at Work—Clever manipulators of the ivories are again at work victimizing proprietors of local cigar stores. Last year a couple of similarly gifted individuals made a visit to the city, and by the expert manner in which they threw the dice, beat the cigar store proprietors out of goods of a large value. This lesson, apparently was not duly taken to heart by some of the proprietors, for within the past few days loud and indignant complaints of the depredatory methods of a second couple of dice experts have been made to the local police officials. One proprietor puts his loss in cigars and cigarettes at $35, and a second says his loss will amount to about the same.

Matron Resigns Post—At the monthly meeting of the W.C.T.U. Men's Mission Board held on Thursday, the members heard with regret a letter read from Miss Dorman, matron of the mission, tendering her resignation, as family affairs will detain her in England for some time. Miss Dorman has filled the post of matron for about a year, during which time she has done very good work, which has been greatly appreciated by all with whom she has come in contact. Grateful acknowledgement was made of the following gifts: Literature, Mrs. Johnstone, Mrs. Scott, Mrs. Myers and Mrs. Spencer; clothing, J. W. Stobarts; flowers, Miss Saunders; cash, Mr. Harris and two friends.

Vagrancy Charge—Acused of vagrancy, Chin Fat, a sleek-looking Chinaman, was arraigned before Police Magistrate Jay yesterday morning. Through his counsel, Mr. R. C. Lowe, he pleaded not guilty. Detectives Heather and Edens are the chief witnesses against him. They declare that Chin Fat, to their knowledge, never did a day's work in six months. His habit, they say, has been to hang around doorways and alleys in Chinatown. Detective Heather told of a visit to his room after the Chinaman's arrest, where he found a note and a bundle of letters. The note, interpreted, said: "Some detective come tonight and search your room." The interpreter started on the other letters. As far as he got they bring the prisoner close to the white slave traffic. Because of the bulk of the correspondence, it was decided to remand the case.

Final Session—The final session of the enquiry into the affairs of the William Head Quarantine Station was held on Thursday afternoon before Commissioner H. W. R. Moore. Medical Superintendent Watt resumed the stand, and was cross-examined by his counsel, Mr. H. B. Robertson, as to his relations with Dr. Hunter, for a time assistant medical officer, and to certain charges which have been made against his administration. Dr. Watt asserted that he had never treated his assistant with anything but courtesy, and gave a denial, accompanied in many instances with an explanation, to the allegations of different witnesses. Witness was carefully examined by Mr. E. E. Wootton, for the Crown, and Mr. Oscar Bass, acting for Dr. Hunter. The preparation of his report will be undertaken by Commissioner Moore forthwith, and it will be forwarded to Ottawa at the earliest possible date.

Mining in Interior—Mayor J. S. Deschamps, of Rossland, was a visitor to the capital on personal business, and he reported, in conversation with a Colonist representative, that mining in the West Kootenay country never was in a better condition. "We are producing better ore and more of it than ever before," he said, "and as things are going now we look for a substantial break in the record of production over previous years." In regard to the financial stringency affecting the operations of the mines, Mayor Deschamps stated that it had never been felt. "Our pay rolls in all the mines, and I am including the Granby mines at that, which are not strictly within my province, are going on just the same, with a tendency to steadily increase, if anything, and with the completion of certain developments now in process, the pay rolls must inevitably increase, for provision is being made for increasing the production all along the line. In the Interior this is a great time, and we have nothing to complain of."

INVESTIGATE DEATH OF MOTOR CAR VICTIM

Mr. S. C. Macdonald, Accused of Manslaughter, Tells of Accident on Oak Bay Avenue—Hearing Is Adjourned.

After taking the evidence of Dr. Nelson, who performed the post-mortem examination on the body, and of Seymour C. Macdonald, held on a charge of manslaughter of Mr. Thomas G. Procter, found dead on Oak Bay Avenue at midnight on Wednesday night, the inquest on Mr. Procter's body yesterday afternoon was adjourned until Monday morning next at 10:30 o'clock. The preliminary hearing of Macdonald also commenced in the Oak Bay police court yesterday afternoon at 4 o'clock before Magistrate Jay, but beyond arraigning the accused, no further steps were taken, the hearing being adjourned until next Friday afternoon at the same place.

The inquest opened at 2 o'clock in the police court, city hall. Mr. Macdonald was represented by Mr. W. J. Taylor, K. C., while Mr. W. C. Hall, of the firm of Messrs. Tait, Brandon & Hall, appeared for Mrs. Procter. The jury was composed of Messrs. Henry F. Pullen, Lambert O. Paterson, E. Skinner, John A. Watson, James A. Martin, and Thomas M. Trew.

Dr. Nelson testified to having been summoned on Wednesday night to the scene of the accident, and of pronouncing Mr. Procter dead. The attempt to resuscitate the deceased proved futile. The post-mortem examination indicated that the deceased had died of shock. There was evidence of a slight concussion of the brain, but not enough to have caused death of itself. Besides minor bruises on the right side there was a fracture of the left leg below the knee.

The accused, Mr. Macdonald, told his story of the events. After he had struck the body his motor car skidded some distance. He had taken his sister home, and was returning to his office, located near the scene of the accident. He did not see Mr. Procter, nor know he was there until he struck him. At the time of the impact he was not aware that he had struck a human being. He started ahead towards his office, and then thought he had better return to see what it was. He did so, and found the body lying on the track. He stopped the incoming car, and the crew helped in moving away the body. He went to his office and telephoned to the police and returned to the body. His car was standing further down the road, and he left it there during the time the police were dealing with the body. He did not go away until told by the police that he might do so.

Mr. Macdonald stated that he is afflicted with astigmatism. The roadway was slippery from a light rain which had fallen. He was not driving his machine at a greater rate than about twelve miles an hour. He has been driving a motor car about nine or ten months. It was subsequent to his returning to his office a second time that he discovered that the glass in one of the headlights had been broken. He had not made any statement to the police at the time, that he had run into Mr. Procter, and he was not asked any questions.

Coroner Hart would not permit any cross-examination by the legal gentlemen present, taking but the direct statements of the accused. As some of the witnesses to be examined were not able to be present at yesterday's hearing, the inquest was cut short, and the adjournment taken. Mr. Macdonald will probably be recalled when the sessoins resume.

Following the opening of the preliminary hearing in the police court yesterday afternoon, Mr. Macdonald's bail was renewed at the same amount of $10,000, the bondsmen being the accused's father, Mr. Alexander Macdonald, and Mr. A. C. Burdick.

OBITUARY NOTICES

BENNECK—The funeral of Mr. William Russell Benneck took place yesterday afternoon from the residence of his father, 1222 Whittaker Street, Rev. Andrew Walker officiating. A number of friends of the deceased attended, and the floral tributes were many and beautiful. The pallbearers were Messrs. Thos. T. Fiddler, F. N. Penman, L. Bell, G. Fiddler, C. L. Whitman and W. Hodgins.

PROCTER—The funeral of the late Mr. Thomas G. Procter will take place on Sunday at 3 p. m. from his former residence, 2086 Granite Street, Oak Bay, under the auspices of the Masonic order, of which he was a member.

Births, Marriages, Deaths

BORN

HINCKS—At St. Joseph's Hospital, July 11, 1913, to Mr. and Mrs. H. A. Hincks, of Langford Station, B. C., a son.

DIED

PROCTER—Thos. Gregg Procter, of this city, on July 10.

Funeral at 3 p. m. on Sunday, July 13, from family residence, 2086 Granite Street, Oak Bay. Friends please accept this invitation.

THOMAS—The death of John Thomas, aged 57 years, occurred the morning of the 4th inst. at the Jubilee Hospital. Mr. Thomas was a resident of the city of Victoria for many years. The remains are repoing at the parlors of Hanna & Thomson. Funeral announcement later.

FUNERAL NOTICE

Members of Victoria-Columbia Lodge No. 1, A. F. & A. M., B. C. R., are requested to meet at the Masonic Temple, Fisguard Street, on Sunday, July 13, 1913, at 2:15 p. m. sharp, for the purpose of attending the funeral of our late Bro. Thomas Gregg Procter, of Nelson Lodge No. 23, B. C. R.

The brethren of local lodges and sojourning brethren in good standing are invited to attend.

By order of the W. M.

A. ST. GEORGE FLINT, Secretary.

This special midsummer offer won't last long. The instruments are going strong at this very special price and terms. Just think what an offer this is: The "Regal," one of the handsomest instruments made by the famous Columbia Phonograph Company, an instrument which is sold right along for $65, now offered here for a short time at only $50, $5 down and $5 a month, with six big double-disc records thrown in for good measure.

It's time you took advantage of this offer. A day or two will probably see the last of this special selling; then, if you want a "Regal" you will have to pay the regular price, $65.

The "Regal," just as pictured except for the ommission of the record cabinets beneath the sound box, may be had, during the life of this special offer, for $45, on the same terms and with the same gift of six double-disc records.

This instrument is a winner for any purpose; for the home, summer home or camp it has no superior. A small investment now will insure you and yours of years of pleasure and educational benefit.

ADVERTISE IN THE DAILY COLONIST

In Women's Realm

Helen Keller in 1904.

Mother Mary

By Florence Earle Coates

Methinks the Blessed was content, her journey overpast,
Amid the drowsy, wondering kine on lowly bed to lie:
To dream in pensive thankfulness, and happy days forecast,
While over her the Star of Hope waxed brighter in the sky.

And yet, methinks, in Bethlehem her spirit had been lone
But for the tender new-born joy that in her arms she bore—
Aye, even though with gifts of gold and many precious stone
Great kings had knelt with shepherd-folk about her stable door.

But every mortal mother's heart knows its Gethsemane—
That loneller spot whereto no star the light of hope may bring—
Yet even in the darkest hour, amidst her agony,
Each still remembers Bethlehem, and hears the angels sing.

Helen Keller

Interest in this wonderful woman has been revived by the report that recently this girl, who can neither see nor hear, has made a public speech to a large audience.

More recently it is said that Queen Victoria of Spain, the cousin of King George V., has asked the American woman, who has herself so wonderfully mastered her disabilities, to teach her little son, Prince Jaimie, who has been pronounced incurably deaf. This Helen Keller has refused to do.

Thirty-three years ago, in a little town in Alabama a beautiful child was born to Arthur H. Keller, who had been a captain in the Confederate army, and his wife, Kate Adams. Till she was nineteen months old, the baby was as beautiful and far brighter than most babies are. Then, suddenly, a mysterious illness robbed her of sight and hearing, but not of the indomitable will or wonderful mental mentality with which she had been gifted.

For nearly five years her spirit was imprisoned. Only by touch could she communicate with her fellow beings. Then a teacher was found for her, Miss Sullivan, to whose faithful instruction Helen Keller owes it that she has been able to master knowledge which is hidden from millions of her fellow women, to whome sight and hearing have never been denied.

Helen Keller has now become a teacher, not of those afflicted like herself, but of the great world from which she would not be shut out. She has but begun. What she may accomplish if she lives to the allotted span of human life, who can say?

Schoolgirls

Today, the last of the schoolgirls will be free for the holidays, and their elders, and many of themselves are wondering what will be the next step to be taken. Shall they go to work, or will they return after the holidays are over to take up new studies or to pursue the old ones?

Well may those who love them consider carefully this next step. It is not a light matter to send the girls from the control of teachers and the safeguards of home into the world of workers, where they must take upon their young shoulders the burden of providing for their own support and the responsibility of governing their own actions.

Who that looks into the bright faces of the children who gather for the closing exercises of the public schools, or the more thoughtful, but not less merry groups who this week have been taking the examinations of the High School, would not wish for most of them a little longer period of school life?

Only under exceptional circumstances ought the little girl of from twelve to fifteen who passes, or fails to pass, the entrance examination, to be kept at home. If her mother is ill, or if her own health has failed, her duty will call her from her studies. Otherwise, she will miss in after life the education she ought to have had.

In a past generation there would have been plenty to do at home, and while completing her growth, the young girl could help her mother, learn to be a good housekeeper, and make herself so useful that her presence would be a gain, financially, to the family.

This is rarely the case now. The girl who remains from school too often is half idle, and in a city spends too much time on the street or in places of amusement. There are many people who think that a public school education is quite enough for the girl who intends to be a stenographer, a clerk in a store, or a hospital nurse.

Apart altogether from the fact that a woman's education is, like that of a man, a preparation for life, and that the wider and broader it is, the fuller and more useful the life will be, a girl who has gone through the High School will, other things being equal, make a far better secretary than one who has only gone through the public school.

So far as nurses are concerned, a movement has originated among the body of graduate nurses for higher scholastic qualifications before a girl can enter upon a course of training.

In Germany, and in some cities in the United States, the salesgirl is prepared for her work by a practical course that makes her of value to her employer from the day that she enters the store. While she is studying literature and arithmetic she is learning the quality of goods and their prices, as well as finding out where they come from, and much else that will be of interest and use in her work. It may be that the Technical Education Commission will make recommendations along this line.

For the girls who have fitted themselves for teachers, it may be said that the best positions are, as a rule, given to those who have the highest qualifications. The labor of teaching is hard enough for any woman without having to endure the strain of being obliged to prepare for future examinations. The ambitious girl who leaves school young with the determination to complete her course after teaching a few years, too often finds that her strength is not equal to the double labor she undertakes.

When duty calls a girl away from school, she must obey, resolving that she will make the most of the opportunities she has already enjoyed. All education is obtained under the direction of school teachers, however efficient. But no prejudice or whim should keep a girl from fitting herself in the best possible way for her future occupation and for the duties of life.

In the meantime, let us all hope the girls, little and big, will enjoy their holidays to the full. The years to come will bring to all their burden of care and sorrow. Let their elders give them, whenever it is possible, the opportunity; for such unalloyed happiness as only the young can feel.

Mary Stuart—The Edison three-part feature, about which so much advance favorable criticism has been written, is the feature at the Majestic Theatre for two days only beginning Monday, July 15. This magnificent production deals with the life of Mary Stuart, Queen of France and Scotland, and pretender to the throne of England. It is historically accurate, with gorgeous costumes, lavish stage settings, and produced by a strong cast, which includes Mary Fuller, Miriam Nesbitt, Marc MacDermott, Bigelow Cooper, and other well-known stars. "Mary Stuart" will be musically interpreted on the pipe organ by Professor Hinton.

GOOD LACROSSE OFFERED TODAY

Victoria and New Westminster in Amateur League Match —Sidney Team Here to Play the Lathers.

Lovers of amateur lacrosse have a good bill offered to them today, as two visiting teams, Westminster and Sidney, will come to the city to clash with local teams. Victoria plays the former at 3 o'clock, and the Lathers meet the Saanich Peninsula lads, commencing at 1 o'clock. Both home teams finished their training on Thursday night and are fit for today's matches. The games will be played at the Royal Athletic Park.

The Victoria boys are out to win both games, and the defeat of Westminster, particularly is predicted. The local team looks as strong as Manager Lorimer can make it, and should give the best account of itself for this season. The Westminster twelve has administered some crushing defeats to the local team this season, but all will be evened up today, according to the local boys. At all events, a first-rate, and a clean game is expected, and it is hoped that there will be a record crowd out to the matches. The Victoria home worked exceedingly well the other night in practice, and considerable improvement is noticed.

According to some of the local lacrosse players, Sidney has one of the classiest home players on the Island today in Munroe a tall, young man, who has been in the game but two years, and shows the greatest promise of any one in this locality at the present time. Monroe will play with the Sidney team today, and his work will be watched with interest.

One of these fine days it will be found that Sidney will be sending out a team in the senior league of the Province, and their entry will be welcomed from all sides, for they have stuck faithfully to the game in the past two years, and are beginning to reap the benefit in the development of players. Taking the pick of Oak Bay, Lathers, Victoria and Sidney, it looks as though this Island could field a Mann Cup team any day in the week, and if matters are not taken too far, the Mann Cup will find a resting place on this Island some season in the near future. Vancouver Island has the goods, but the proper spirit among the boys has not yet been in evidence.

When the day comes along that they get together and work in harmony like the wonderful V.A.C. aggregation, Vancouver Island will be likely to attract some attention in the lacrosse world. This is the opinion of those who follow lacrosse in these parts.

The teams, with the exception of Westminster, are to be composed of the following:

Seniors—Goal, Allen Clark; point, Frank Sweeney; cover point, Joe Dakers; 1st defence, Stanley Okell; 2nd defence, E. Taylor; 3rd defence, John Johnson; centre, C. McCarter; 3rd home, A. McGregor; 2nd home, Cyril Baker; 1st home, McDougall; outside home, Petticrew; inside home, Brynjolfson; spares, McDonald and Menzies.

Lathers—Goal, Smith; point, Baines; cover point, Sherwood; 1st defence, Wilson; 2nd defence, Moore; 3rd defence, McKay; centre, Steele; 3rd home, Stevens; 2nd home, Wall; 1st home, Coffey; outside home, Young; inside home, Ross; spare, Brown.

Manager Peter Tester has submitted the following names as those on the Sidney team for today: Pottinger, Munro, G. Pottinger, Tester, Humber, Munro, Moles, S. Humber, P. Humber, Norton, Robinson and Bedford.

Oak Bay Cricketers

The following will represent Oak Bay at the Jubilee Hospital grounds. The game is scheduled to start at 2 p. m. today. Messrs. H. R. Orr, W. R. L. Pilkington, H. A. Yeoman, G. S. Grant, W. A. R. Hadley, C. P. W. Schwengers, M. D. Coppinger, W. Speak, E. G. Carr, Wardle and Capt. T. H. Harker.

The Oak Bay "B" cricket team will meet the Albions at Oak Bay at 2:15 sharp today. The following will play for Oak Bay: A. B. Laurence, H. Lethaby, L. G. Norman, L. A. Gurney, C. Barker, A. Morton, C. Speak, H. V. Watkins, H. Clarke, A. Robinson A. N. Other.

GIANT RALPH ROSE HERE NEXT MONTH

Famous California Weight Thrower and Olympic Star Will Send His Entry for Carnival Meet

Ralph Rose, one of the greatest weight throwers in the world, and representative from the United States at the Olympic Games last year, has signified his willingness to compete at the Carnival meet here next month, and his entry along with many others from California is expected next week. Geo. L. Horine's entry is also due by Tuesday, the day the entry list closes.

Another event has been added to the programme, which is a one mile walking race. That this event will bring entries from Nanaimo, is certain, for that community boasts of many of British Columbia's finest walkers. Spokane, Seattle and Vancouver athletes will also be sending big teams to the meet, and the universities of the Pacific Coast are also expected to send at least three or four men apiece.

The complete programme as now arranged follows: 100 yards run, 220 yards run, 440 yards run, half-mile run, mile run, 120 low hurdles, 220 low hurdles, 120 high hurdles, broad jump, running broad jump, pole vault for height, shot put, 16 lbs., hammer throw, 16 lbs., one mile walking race, discus throw, tug-of-war, one mile relay race, 220 yards obstacle race, marathon race, 15 miles, paper chase (age limit 18 years).

Minto Cup

World's famous silverware which will rest on the banks of the Fraser now that Vancouver has failed to attend league meetings and at least make an effort to mend the awful mix-up of affairs.

WILL NOW MEET AMERICAN TEAM

Canadian Tennis Men Dispose of Belgium in Handy Fashion—Contest With U. S. Men for Right to Challenge.

FOLKESTONE, Eng., July 11.—The Canadian team won the doubles match from the Belgians, and thus qualified to enter the final round, where the United States and Canadian teams will compete for the right to challenge the English team for the Davis Cup. The semi-finals brought together R. B. Powell and B. P. Schwengers of Canada, and A. C. Watson and W. H. Duvivier of Belgium.

Powell and Schwengers had an easy task beating Watson and Duvivier. They won the match in three straight sets, 6-2, 6-2, 6-2.

Americans Beat Germany

NOTTINGHAM, Eng., July 11.—The American team won the doubles by three sets to one from the German team.

The United States representatives consequently enter the final round, where they will meet the Canadian team. The score for the doubles match between the United States and Germany was 6-4, 2-6, 6-3, 8-6. Maurice E. McLoughlin of San Francisco and Harold H. Hackett of New York met Friderich Wilhelm Rahe and Henriech Kleinschroth in today's match.

BAYLEY AT GORGE PARK

Ex-Champion Will Meet Al Davies at Popular Resort in Open-Air Exhibition Thursday Night

Joe Bayley and Al Davies, bantam amateur champion of the Pacific Coast, will clash in a three-round exhibition bout at the Gorge in an open air arena next Thursday night, and in addition many other wrestling and boxing matches have been arranged to extend over on Friday evening. A specially constructed stage is to be erected for the purpose and a musical programme has been arranged, the whole providing a rare treat for lovers of music and of the manly art.

The complete programme for Thursday and Friday follow:

1.—Exhibition, boxing, 3 rounds, Joe Bayley (ex-champion of Canada), vs. Al. Davies, J. B. A. A., (Pacific Coast Bantam Champion). 2.—Wrestling, 158 lbs., Jack Middleton, J. B. A. A., vs. J. Shuldz, J. B. A. A. 3.—Song, Venc Jeffs. 4.—Boxing, 3 rounds, 125 lbs., C. Motherall, J. B. A. A. (B. C. Champion), vs. Scott Cropper, J. B. A. A. 5.—Song, W. Radke. 6.—Wrestling, 135 lbs., Jack Tait, J. B. A. A., vs. W. F. Richardson, J. B. A. A. 7.—Boxing, 135 lbs., Al Jeffs, J. B A. A., vs. H. Motherall, J. B. A. A. 8.—Wrestling, catchweights, J. McMann, J. B. A. A., vs. S. H. Gattenby. 9.—Comic song, Mr. Thurston. 10.—Boxing, 145 lbs., Harry Willis, J. B. A. A., vs. T. Hicks.

CAPITALS TRYING TO RIVAL WASHINGTON

Have Six Straight This Season With No Losses—Meet Hills in Game on Monday Night

It looks as though the Capital Baseball team is trying to equal the record of the Washington Senators for straight wins, as the club has now won six game this season without a loss. And they are not going to stop at that for the boys are desirous of going through the league without a loss. Thursday night, the Caps beat the East Ends by a score of 15 to 5.

On Monday evening one of the most interesting games of the season will take place between the Hills and the Capitals. Two or more wins for the latter, and they will have the league championship won. But there is one big obstacle in the path of the Capitals' forward march to victory, and that is the team commanded by Walter Lorimer—the Hills. Their leader, while admitting that he has lost some of his highest valued players is not prepared to say that he has not a chance for the pennant, and will field a strong team and a good pitcher on Monday evening. He expects to give the Capitals a surprise.

Pencil perfection can be found only in L. & C. Hardtmuth's "Koh-i-noor." To search for it elsewhere is to invite disappointment. "Koh-i-noors" are made in 17 degrees and copying. Is your Pencil a "Koh-i-noor" or only an imitation?

All Kinds Baby Cars. 158 Fort Street.

TONER KEEPS HITS SCATTERED

Harry Meek Stores Away the Game With Double When the Bases Are Full in the "Lucky Seventh."

League Standing

	W.	L.	Pct.

Seattle	51	36	.586
Portland	44	36	.650
Victoria	42	44	.487
Tacoma	39	50	.438
Spokane	30	56	.353

SEATTLE, July 11.—Maintaining the tradition of recent times, Victoria got action in scoring at the jump. Score, 4 to 2.

In today's game, after McIvor had struck Madden out, Rawlings walked. Swain hit for one base past second, and then Meek hit the pill to left for a couple of measures, scoring Rawlings. Alberts also drew transportation, filling the points, with one out. Luck was with the Tillicums this time. Nill made a swell play on Delmas' grounder to Raymond, and Raymond hustled the ball to first, completing the double play and retiring the side. Lamb, first up the second, hit one over the scoreboard, which made Victoria's score two, and there it remained until the seventh.

Although Cadman walked for a starter in the second, and Jackson contributed a double in the third, Seattle made no impression on the score board until the fifth, when Killilay got on by the four-ball route. He was forced at second by Raymond, Toner and Delmas making the play. A wild pitch put Raymond on second, and he came home on McIvor's healthy two-base wallop to left centre. Shaw gave Delmas a grounder, and he fumbled long enough to let McIvor reach third and Shaw first. Jackson met the emergency with a drive over second, which scored McIvor and made the battle an even break. Hope of taking the lead in this inning was blasted when Nill forced Jackson at second, and Delmas made a nice play on a hard hit ball by Strait, which Toner cuffed and Delmas retrieved in time to cut off the runner at first. Between the second and seventh innings McIvor held Victoria helpless. In the seventh, Brotten singled to left and Toner beat out an infield hit. Brotten was lings flied to Strait, Swain walked, Rawlings flied to Strait, Cwain walked, filling the bases, and Meek doubled to left, scoring Toner and Madden. Alberts flied to Killilay, and that ended the run getting.

Score:—

Seattle	A.B.	R.	H.	P.O.	A.	E.
Shaw 3b	5	0	1	0	2	0
Jackson, 1b	5	0	2	9	1	0
Nill, 2b	4	0	1	1	3	0
Strait, 1f	4	0	1	4	0	0

McGinnity Scores Win

TACOMA, July 11.—Tacoma and Portland played sensational ball today, the game going to the Tigers in the eleventh inning by a score of 3-2.

Score:—	R.	H.	E.
Portland	2	8	3
Tacoma	3	9	0

Batteries: Callahan and Murray; McGinnity and Harris, Grindle.

Lynch Worrying Leaders

VANCOUVER, July 11.—Poor base running lost today's game for Vancouver, Spokane winning by a score of 3-2. Spokane's three runs were earned by timely hitting. Both pitchers were effective.

Score:—	R.	H.	E.
Vancouver	2	6	1
Spokane	3	8	1

Batteries, Schmutz and Konnick; Covaleskie and Hannah.

JONES IGNORES LEAGUE MEETING

Loses Chance to Press Protested Game Here—Westminster Not Overlooking Game Scheduled for Today.

VANCOUVER, B. C., July 11.—Vancouver's protest against New Westminster, as the result of the match played in Victoria a couple of weeks ago, came up before the special committee at a meeting held today at the St. Regis Hotel. New Westminster officials attended and deposited the necessary fund of $25, but the Vancouver officials failed to attend and also neglected to post their fee. In consequence, the protest was not considered, and Vancouver's claims expire automatically.

New Westminster will be prepared for any emergency that may arise. President Kellington of the league has named R. Dewar and S. Peele as referees for the game scheduled for tomorrow in the Royal City, and they will be on hand at 3 o'clock. If the Vancouver club defaults, the Royals will likely claim both the game and the forfeit.

League Baseball Results

TRAINING OF MISSIONARIES

Educational Conference Opens at Saskatoon—Address by Prof. McLaughlin of Toronto University

SASKATOON, Sask., July 11.—The opening session of the Missionary Educational Conference movement took place tonight in Emmanuel College. Prof. J. F. McLaughlin, of Toronto University, gave the opening address. The meeting was devoted to organizing and outlining the work for the week. The conference will continue till Friday night.

In explaining the work of the conference, Prof. McLaughlin said that in a broad sense it was for the training of missionaries and that study would be devoted in the main to the aiding of those working in home fields.

Today's Tennis

The local representatives to meet the Vancouver tennis experts today have been selected for the singles as follows: Messrs. C. C. Fulton, Garrett, Marshall, Harrison, Wheatley and Baines. The single matches will start at 1:30 o'clock this morning, while the doubles will commence at 2:30 o'clock. Doubles players are: Messrs. C. C. Fulton and Baines, Harrison and Wheatley, Garrett and Marshall.

CANADA IS THIRD IN EMPIRE SHOOT

First Day's Results Give Great Britain Leading Place, With Australia Second—Canada Has Chance to Pull Up.

BISLEY, Eng., July 11.—Shooting began today, and will conclude tomorrow in the Empire match for the challenge trophy, presented by the Australian Rifle Association, for annual competition, by teams of men representing the naval and military forces of the United Kingdom, the several Overseas Dominions and other units of the British Empire. It is shot for over three, five and six hundred yards today, and at eight and nine hundred and a thousand yards tomorrow, ten shots at each distance.

This match has been shot for on three previous occasions; in 1907, when it was won by Australia, with 2,104 points; New Zealand second, and Great Britain third; 1909, when Australia won, with 2,088 points; New Zealand second, and in 1910, when Great Britain won, with 2,177 points; Canada being second, with 2,105 points, and Australia third. Today, therefore, is Canada's second essay in this competition, which is held at the end of the week immediately preceding the opening of the N.R.A. meeting at Bisley.

Following is the personnel of the British team defending this challenge trophy: Sergt. Barr, London-Scottish Rifle Brigade; Private Fulton, Queen's Westminsters; Gray, London-Scottish; W. A. Hall, Queen's Westminsters; Sergt. Ommundsen, Queen's Regiment, Edinburgh; Corp. Mann, Honorable Artillery, Company; Private Weighman London-Scottish, and Martin, Glasgow Highlanders. Of these Barr, Fulton and Ommundsen are ex-King's prize men.

At the opening range, ten shots at 300 yards, the weather was good, but there was a light fishtail wind, and the Canadians could do no better than third place, with a total of 363, Britain leading with 377, Australia 364, Canada 363, and India 334.

Following are the individual scores at 300 yards: Private Denholm, 79th Regiment, Winnipeg, 47; Color Sergt. S. J. Perry, 6th D.C.O.R., Vancouver, 43; Liuet. Stack, 78th Regiment, Truro, 44; Sergt. Buller, 2nd Q.O.R., Toronto, 47; Staff Sergt. Freeborn, 13th Regiment, Hamilton, 48; Private Kings, 48th Highlanders, Toronto, 47; Lieut. F. Richardson, C.O.F.G., Victoria, 46; Captain Crowe, 39th Regiment, Guelph, 41.

At the next range, 500 yards, both Britain and Australia increased their leads over Canada, totals being: Britain, 386; Australia, 385; Canada, 379, and India 352.

The following were the individual scores at 500 yards: Denholm, 45; Perry, 46; Stack, 48; Buller, 45; Freeborn, 49; Hawkins, 42; Crowe, 47; Richardson, 48; Buller scored a possible.

The first day's shooting was concluded with Britain leading with a total of 1136. Australia is second with 1110; Canada third with 1085, and India fourth with 1014. In the 600-yard range, Britain obtained 373, Australia 361, Canada 343 and India 328. The following are the individual scores at this range: Denholm, 46; Perry, 42; Stack, 41, Bullock, 44; Freeborn, 43; Hawkins, 44; Crowe, 39; Richardson, 44.

Men's Own Team

The Men's Own cricket team to meet the James Bay Methodist team this afternoon at Beacon Hill will be composed of the following players: Messrs. R. J. Ferris (captain), A. Lea, B. Lea, J. Lea, N. Collins, K. Wiseman, W. Pargiter, N. Armstrong, E. Lock, F. Norman and another.

Want Lalonde

Manager Cattarinich, of the Montreal Nationals, has wired to the Coast for Newsy Lalonde, and it is likely that the Frenchman will go. His waiting on the Coast will not pay him nor Con Jones, so it is certain that the latter will sell his contract.

VANCOUVER MEN SWEEP REGATTA

In First Day's Races Terminal City Oarsmen Win Junior Fours, Singles, Doubles and Intermediate Singles.

VANCOUVER, B. C., July 11.—Vancouver Rowing Club colors—the red and white—were worn to glorious victories today at the twenty-second annual regatta of the N. P. A. A. O. Crews from the local club took four out of the five events on today's programme at the big regatta at Indian River Park. Vancouver won the junior singles, the junior fours, the junior doubles and the intermediate singles. A crew from the Portland Rowing Club won the last race of the day, the intermediate doubles. The James Bay Athletic Association had men entered in four of the five events, and succeeded in taking two seconds.

The feature of the day's regatta was the splendid rowing of F. C. Hudson. Hudson won the junior singles from D. G. Cooper, of Portland, by no less than six lengths, and returned to take part in the intermediate singles, which he also won easily from Cooper, rowing but 24 strokes to the latter's 34 over the last hundred yards.

The closest race of the day was the junior fours. The race was an exciting one all along the 1¼ miles of the straightaway course. Vancouver's first crew, Portland and Victoria were rowing almost bow and bow, when the Vancouver four bent their backs to a supreme effort and forced their shell over the last fifty yards of the course to pass the finish line just half a length ahead of the shell in which the Victoria oarsmen strained. Victoria were just one-quarter length ahead of Portland.

Summary

Junior fours—First, V. R. C.; second, J. B. A. A.; third, P. R. C.

Junior doubles—First, V. R. C.; second, P. R. C.; third, J. B. A. A.

Intermediate singles—First, V. R. C.; second, P. R. C.

Intermediate doubles—First, P. R. C.; second, J. B. A. A.; third, V. R. C.

Junior singles—First, V. R. C.; second, P. R. C.

ALL BRITISH WIRELESS

Newcastle, N. B., Will Be Eastern Canadian Terminus of Link in World-Encircling Service

NEWCASTLE, N. B. July 11.—Newcastle is to be the Atlantic terminus of the Universal Radio Syndicate, which will establish a wireless service from Great Britain to this town as a link in the All-British world-encircling service.

Land wires have been obtained from Vancouver to Montreal, and the company is negotiating for the purchase of existing lines between here and Montreal. The existing Pacific cable will be used, and so on westward back to Great Britain.

A Montreal concern has contracted to build and install the plant. The steel tower will be 500 feet high. It is being constructed in England and will be shipped out in sections. Round this central tower will be grouped six other towers, each 100 feet high, connected by copper wire with the central tower. A dynamo to operate the plant will need a 250-horse power engine to drive it.

The Canadian Government's arrangement with the syndicate is for five years, at the end of which the Government has power to take over and operate the service as a Government work. The British wireless station will be on the west coast of Ireland.

CROP OUTLOOK IMPROVES

Optimistic Feeling Result of Continued Favorable Weather—Earnings of Canadian Railways Increase

NEW YORK, July 11.—Dispatches to Dun's Review from branches in the principal cities of the Dominion of Canada note growing conservatism in some quarters, and a general disposition on the part of the merchants to await the crop results before entering into extensive future commitments.

At Montreal, reports from the country districts are not wholly favorable, and conservatism is strongly marked in a number of lines. Retail trade in seasonable merchandise is fair, but wholesale buying is largely confined to pressing needs, which, however, is regarded as making for better conditions later on.

Fair yearly business is reported by Quebec, both wholesale and retail trade being in good volume this season.

Toronto reports that numerous orders have been received for seasonable dry goods, but that there is some uncertainty regarding the volume of future trade. Some manufacturing plants are reducing operations, and there is a general tendency to hold off and await crop results. The most depressing influence is the stringency of money, but it is thought that this will be remedied when the crops are harvested, and the outlook is regarded as encouraging.

Trade conditions are good at Hamilton, although business in numerous lines has been affected by the weather.

Satisfactory crop progress in the Far West and Northwest is reported, and the feeling among merchants is somewhat improved.

Winnipeg reports a better retail trade, but jobbing business is rather quiet. The prevailing tendency is to await crop results. Collections show no improvement.

Business in all lines at Saskatoon is fair, although there is still complaint of monetary stringency.

Most jobbers at Regina report an active demand for groceries, boots and shoes and kindred lines, and retail trade appears to be in a satisfactory condition.

Business at Calgary shows considerable improvement this week, and the feeling is generally optimistic on account of the continued favorable weather.

Gross earnings of all Canadian railroads reporting for June show a gain of 6.1 per cent as compared with the earnings of the same roads for the corresponding month last year.

Commercial failures in the Dominion this week numbered twenty-four, against twenty-six last week and twenty-three in the same week last year.

Will Increase Capital

OTTAWA, July 11.—The Department of Finance has received formal notice of the intention of the Home Bank of Canada to increase its capital stock from $3,000,000 to $6,000,000. The new issue of 30,000 shares will be alloted at periods to be fixed by the directors.

MEET PRESIDENT WILSON

Eastern Railway Officials and Representatives of Employees to Confer at the White House

WASHINGTON, D. C., July 11.—The meeting at the White House, scheduled for Monday between President Wilson, railway officials and representatives of the employees' union, will take place as planned, according to an announcement today by Secretary Wilson, of the Department of Labor.

"Both the representatives of the railway managers and unions will be present at the conference," said the secretary. "I prefer not to say at this time who asked for a conference with the President.

"I can say, however, that the request was not made on the initiative of this department."

The object of the conference, Secretary Wilson said, was not altogether to prevent the threatened strike of trainmen on Eastern roads, but was to discuss and arrange a common ground upon which the Government, the railways and the employees' unions can meet in the settlement of future wage troubles.

Militants Active at Liverpool

LIVERPOOL, July 11.—Militant suffrageties started a window-smashing demonstration during King George's visit here today. Armed with pokers, squads of women shattered several large windows along the route of the procession, but the police quickly rounded them up and order had been restored before His Majesty's arrival.

Noted Lecturer Coming

DR. C. E. HEARD, OF VANCOUVER, B. C., TO SPEAK ON "TWO SALVATIONS, BUT NO SECOND CHANCE."

1,200,000,000 heathen in the world today! What is their future destiny?

According to statistics, there are approximately one billion, two hundred million heathen in the world today; some ninety thousand of these sink into heathen graves every 24 hours.

There is no Salvation outside of Christ; therefore what is their lot? Will they be eternally tortured, in a place called "Hell?" or are they saved by ignorance and will they go to Heaven without having heard the only Name given under Heaven and amongst men whereby we must be saved. "The Name of Christ Jesus?"

These and similar questions will be answered from the inspired Word of God. "The Bible."

Arrangements have been made for Dr. C. E. Heard, of Vancouver, to give a free public address Saturday evening, July 12, at 8 o'clock, in the Alexandra Club.

His subject will be, "Two Salvations, but no Second Chance."

All who are interested in hearing a strait Bible Lecture from a purely unsectarian standpoint, are cordially invited to be present.

The doors will be opened free to all, and no collection solicited nor received.

Dr. Heard is a well-known Bible lecturer, who has traveled in all parts of the United States and Canada, giving free lectures on topics of the utmost importance and interest. He is a deep student, a loyal supporter of God's Word, a sound logician and a pleasant speaker, proving all things from the standpoint of "What saith the Scriptures."

According to press reports, he is a man well worth hearing.

"Mary Stuart"

EDISON'S MASTERPIECE IN THREE PARTS

SUGGESTS SOLUTION FOR SEWAGE PROBLEM

Treatment by Electrolysed Sea Water, as In Use at Guildford, England, for Purpose of Purification.

The peculiar conformation of the coast line in the vicinity of Victoria makes the disposal of sewage a matter attended with no small difficulty. As yet the problem presented by it is not acute, but the population of the city and the adjacent municipalities is steadily growing, and as Dr. N. Newnham-Davis, of South Wellington in a letter to The Colonist justly says: "One of the most difficult and important problems confronting the municipal governments of Greater Victoria at the present time is undoubtedly the economical disposal of sewage without polluting our tidal waters, a problem the solution of which is apparently not yet in sight."

Dr. Newnham-Davis submits for consideration the Oxychloride process, inaugurated at Guildfrod, in Surrey, England some eight or nine years ago. This he describes as follows:

"This scheme entirely obviates the necessity of constructing those immense lengths of costly submarine sewer-effluents, which are essential to the innocuous disposal of raw sewage in coastal waters; the process is very simple and the necessary plant inexpensive. As the two essential agents are sea-water and electric current, and the cost is in inverse ratio to the facility of obtaining these, it is apparent that the scheme is eminently adapted to the conditions and requirements of Victoria and its environments. Avoiding technicalities, the system may be roughly described as follows. On the line of the sea-bound effluent, and as near the shore as is practicable, is an intercepting tank of a size corresponding to the six-hour capacity of that effluent, and conveniently near it is another tank, whose capacity is about .02 per cent of the first one. Sea water is pumped into the small tank, or electrolyser, which is specially designed with a large area of electrical surface so as to economize current by the use of a large volume of electricity at a low voltage. The currents electrically decomposes the sea water, converting it into one of the most powerful oxidizing agents known to science. The sewage from the district served by the effluent is detained in the intercepting tank for a period of about five hours or less, according to the location of the mouth of the effluent, and during that time is exposed to the contents of the electrolyser, which are pumped into the intercepting tank in the proportion of about 18 gallons of the agent to 1,000 of sewage; at the end of the treatment-period the intercepting tank is emptied into the sea.

"The effect of five hours' treatment on raw sewage is given, after a bacteriological examination, as follows: Bacillus Coli, which is present in all sewage, and is allied to the typhoid bacillus, reduced from over 1,000,000 per cubic centimetre to nil; enteritis spores, from over 1,000 to less than 10; total organisms, from 23,200,000 to 640. When it is realized that in freedom from bacteria the treated effluent compares not unfavorable with average drinking water, the possibilities of the scheme become self-evident.

"While all my information on the subject is obtained from published reports, there is no doubt that full detailed accounts would be given by the Sanitary Authority of Guildford if applied for."

LAW REGARDING DEBTORS

EDMONTON, Alta., July 11.—Hon. Charles W. Cross, Attorney-General of Alberta, informed a deputation of twenty representatives of wholesale houses in Edmonton, that the Provincial Government is opposed to re-establishing the law of imprisonment for debt, also that it would not make more stringent the law regarding debtors.

He said it is absolutely necessary that the farmer's occupation be protected; that the primary purpose of the present law is to give the honest settler a chance by exempting his land and stock from seizure in settlement of debt. If the farmer has means, Mr. Cross said, the merchant can recover by the usual methods, adding that a farmer's land and stock are just as necessary to his capacity to earn a livelihood as the tools are to a carpenter. Under the present law a farmer's land and stock, under a certain limit, cannot be taken for non-payment of debts.

All Kinds Baby Cars. 758 Fort Street.

LUMBERMEN FAIL TO BRING DELEGATION

Question of Royalties Not Discussed With Minister of Lands—Suggests Personal Investigation.

Hon. W. R. Ross, Minister of Lands, expected an important delegation of the Provincial lumbermen to meet him yesterday for the purpose of discussing the royalty question and endeavoring to arrive at a proper basis for fixing the rates definitely and permanently, but the delegation did not come, on account of the fact that the meeting of the Lumbermen's Associations, representative of the Coast and Mountain Districts, held in Vancouver on the previous day, did not succeed in bringing together a quorum of the members, and consequently the business had to be abandoned.

It was intended that the meeting of the lumbermen should draw up a list of proposals in regard to the royalty question for submission to the Minister, but failing this, the secretary of the Mountain Lumbermen's Association, Mr. A. E. Frank, came over to the capital and informed the Minister of the situation. As no arrangements were made for another meeting, it is questionable when the matter will come up again.

Hon. Mr. Ross, in conversation with a Colonist representative yesterday on the subject, intimated that he did not think the question of fixing the rates would involve the appointment of a commission. Certain investigations would have to be undertaken, however, and he suggested that he would probably look into them himself.

Vaise Coming Here.

It is likely that within a few weeks "Frenchie" Vaise, lightweight champion of Canada, will be seen in action at the Victoria Athletic Club. The management are making arrangements to that end. A good smoker and fine list of boxing events have been arranged for next Friday night at the club. Mr. Swift, manager of Vaise, is considering putting his protege in the ring with Freddie Welsh, providing the former defends his title against Joe Bayley on the 26th instant.

We Know Canada

Representatives of our firm have lived in every province and district of Canada. They know the people, the conditions, the prospects. Each of these men specialize upon that part of the field they know. That is the reason that the Hutcharm Service is the most comprehensible in Western Canada today. The Hutcharm Company is the only Advertising Agency West of Winnipeg, Man., recognized by the Press Associations of the World. That recognition has been gained by hard work, by ability to produce successful advertising plans and material and by proving absolute financial reliability.

Ask the Merchants Bank of Victoria, the Canadian or American Press Associations. Ask the Newspapers of Great Britain, India, China, South Africa—they know our work; they know our reliability. Self praise may be no commendation—but straightforward, indisputable, candid facts are worth something to the public.

Don't accept our word for it; let us prove the sincerity of our claim. We make no claim for "smart" advertising; we aim to make every dollar of your appropriation worth five dollars of business. Ask our clients. Let us furnish you with the finished article. Phone 3233 for details.

NOTICE OF REMOVAL
OF
PROVINCIAL BOARD OF HEALTH AND THE REGISTRAR OF BIRTHS, DEATHS AND MARRIAGES

Notice is hereby given that the office of the Provincial Board of Health and of the Registrar of Births, Deaths and Marriages has been removed to the Belmont House, top floor, corner of Government and Humboldt Streets, Victoria, B. C.

H. E. YOUNG,
Provincial Secretary.

Victoria, B. C., July 9, 1913.

PUBLIC WORKS OF CANADA—BRITISH COLUMBIA DREDGING FLEET.

Sealed tenders addressed to the undersigned and endorsed "Tender for Overhaul of dredge "King Edward," will be received at this office until noon on July 26, 1913, for the overhaul conversion of this dredge into an oil burner.

Specifications can be seen and forms of tender obtained at the office of W. Henderson, Resident Architect, Victoria, and also at the office of the undersigned, Room 40, P. O. Building, Vancouver, B. C., and C. C. Worsfold, District Engineer, New Westminster, B. C.

Persons tendering are notified that tenders will not be considered unless made on forms supplied, and signed with their actual signatures, stating their occupation and place of residence. In the case of firms, the actual signatures, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, for five hundred dollars ($500) which will be forfeited if the persons tendering decline to enter into a contract when called upon to do so, or fails to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By Order,

J. L. NELSON,
Superintendent of Dredges, B. C., Department of Public Works, Vancouver, B. C., July 8, 1913.

N. B. Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

NOTICE TO CONTRACTORS

Separate tenders, superscribed,
"Tender for Residence for Head Gardener,"
"Tender for Residence for Engineer,"
"Tender for Residence for the Bursar,"
"Tender for Residence for Assistant Medical Superintendent,"
respectively, will be received by the Honorable the Minister of Public Works up to noon of Monday, the 28th day of July, 1913, for the erection and completion of the following residences at the Mental Hospital, Essondale, B. C.:

"Residence for the Head Gardener,"
"Residence for the Engineer,"
"Residence for the Bursar,"
"Residence for the Assistant Medical Superintendent."

Plans, specifications, contract and forms of tender for each building may be seen on and after the 5th day of July, 1913, at the offices of J. Mahony, Government Agent, Vancouver; R. A. Fletcher, Government Agent, New Westminster, and the Department of Public Works, Victoria, B. C.

Intending tenderers can, by applying to the undersigned, obtain one copy of drawings and specifications of each building for the sum of fifteen dollars ($15) for each set required, which will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for the sum of five per cent of the tender price, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.

Department of Public Works,
Victoria, B. C., July 4, 1913.

60 x 120

PRICE AND TERMS EASY

This property lies midway between Montreal and Oswego Streets, and is in direct sympathy with the great commercial development that is certain to occur in this portion of James Bay. The construction of the breakwater and ocean docks, the bridging of the harbor at Laurel Point and the building of railway trackage must bring this property into commercial uses. Meanwhile it is a fine residence or apartment site, being within a few minutes' walk of the central business portion of Victoria.

AT THE PRICE, $5,500

It is a veritable snap. The terms are very easy, viz., 20 per cent cash and 20 per cent in four annual payments at 7 per cent.

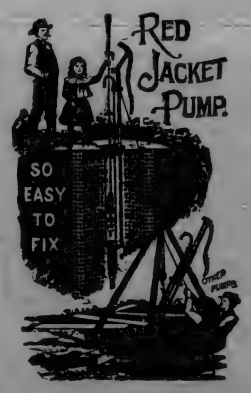

With the acknowledged and provided great increase in Victoria's advancement, the purchase of this property is a gilt-edged investment.

Dull Seasons

There is no greater extravagance than stoically accepting losses of so-called dull seasons.

Resignation to conditions is a thing of the past; it is now simply a matter of intelligent application.

To desire a thing is to be capable of acquiring it.

When the grade is steepest, the Engineer uses more steam—but he "gets there."

Logically—the greatest impetus to business is advertising—direct—forceful—persistent advertising.

When business is dull—more steam will be required; don't hesitate—use it—and "get there."

NOTICE

"NAVIGABLE WATERS PROTECTION ACT."

NOTICE IS HEREBY GIVEN that the GENOA BAY LUMBER COMPANY, LIMITED, Head Office at the City of Victoria, in the Province of British Columbia, is applying to His Excellency the Governor-General of Canada in Council for approval of the area, plans, site and description of works proposed to be constructed at the North East corner of Lot Three (3), part of Section Eleven (11), Range I., W. North Saanich, Province of British Columbia, according to a map or plan on file in the Land Registry Office at the said City of Victoria and there numbered 1019, and has deposited the area and site plans of the proposed works and a description thereof with the Minister of Public Works at Ottawa, and a duplicate thereof with the Registrar General of Titles in the Land Registry Office in the City of Victoria, British Columbia, and that the matter of the said application will be proceeded with at the expiration of one month from the time of the first publication of this Notice in the "Canada Gazette."

DATED this 10th day of June, A. D. 1913.

Petitioner.

GENOA BAY LUMBER COMPANY, LIMITED.

WATER ACT

Take notice that The Sooke Harbor Water Company, Limited, will apply to the Comptroller of Water Rights for the approval of the plans of the works to be constructed for the utilization of the water from the east branch of Sooke River, which the applicant is, by Water License No. 64, authorized to take, store and use for domestic purposes.

The plans and particulars required by subsection (1) of section 70 of the "Water Act" as amended have been filed with the Comptroller of Water Rights at Victoria and with the Water Recorder at Victoria.

Objections to the application may be filed with the Comptroller of Water Rights, Parliament Buildings, Victoria.

Dated at Victoria, this 29th day of May, 1913.

F. A. McDIARMID
Solicitor for the Applicant

NOTICE OF CANCELLATION

NOTICE is hereby given that the reserve existing on Crown lands situated on the South Fork of the Fraser River in the District of Cariboo established by notice bearing date January 7th, 1907, and published in the British Columbia Gazette of January 10th, 1907, is cancelled insofar as the same relates to the lands surveyed as the W. ½ of the Fractional S.E. ¼ of Lot 5668, Cariboo District, consisting of 5 acres, in order that a sale of the said lands may be made to the Grand Trunk Pacific Railway Company.

ORANGEMEN AT VANCOUVER TODAY

Large Contingent of Members of Order in Victoria Went Over by Last Night's Boat to Mainland.

The celebration of the 123rd anniversary of the Battle of the Boyne will take place in Vancouver today under the auspices of Vancouver County Loyal Orange Lodge No. 1. There are in Vancouver county itself twenty-five Orange lodges and these could of themselves put up a good-sized celebration. Their numbers, however, will be augmented by the lodges from Westminster county, which takes in the territory from Ladner to Abbotsford and south to the boundary line. The lodges in the Mission district will also be present.

Then there will be the lodges from Vancouver Island, from Esquimalt, on the south, to Courtney, on the north, and the lodges on the C. P. R. main line from Vancouver to Revelstoke. It is expected that in point of numbers the celebration will be the largest ever held in the Province of British Columbia.

The local contingent, 300 strong, headed by the Fifth Regiment band and the Union Jack, paraded the streets at 10:36 last evening on the way to the C. P. R. dock, and attracted much attention.

COMING EVENTS

Social Service League—Picnic at Cadboro' Bay and Uplands on Saturday. Members meet at Unitarian Hall at 2 p.m. Friends cordially invited.

British Campaigners — The British Campaigners' Association will meet next Thursday evening in the Foresters' Hall, Broad Street, an interesting programme having been arranged.

Royal Jubilee Hospital—The services in the Memorial Chapel tomorrow at 10:30 will consist of a celebration of Holy Communion, hymns and short sermon. Patients, nurses, members of the staff as also residents of the district are cordially invited to attend.

Ladies' Auxiliary — The Ladies' Auxiliary of the St. Andrew's and Caledonian Society, will hold its monthly meeting next Monday at 8 p.m. in the A.O.F. Hall, when the nominations and election of officers will be held, after which a social hour will be spent.

Sale of Work—The Ladies' Guild of St. Luke's Church, Cedar Hill, will hold a tea and sale of work on the Rectory grounds on Friday, July 18, from 3 to 6 p.m. There will be plain and fancy sewing, afternoon tea, ice cream, clock golf, and a concert in the evening.

Bible Lecture—Dr. C. E. Heard, of Vancouver, formerly of Victoria, will speak this evening at 8 o'clock in the Alexandra Club on "Two Salvations, But no Second Chance." Dr. Heard is now touring Canada and the States, delivering free lectures in all the large cities.

Moonlight Excursion — The Local Union of Christian Endeavorers has arranged for a moonlight excursion among the Gulf Islands, to take place on Friday next, July 18. The Princess Royal has been chartered for the occasion, an orchestra has been engaged, and vocal selections will be rendered by several friends.

Victoria Club Opening—The formal opening of the Victoria Club quarters in the Campbell Block will be held on Monday evening. This will be the first social gathering to be held in the club since it was opened about two weeks ago. Each member is invited to bring two friends with her. Sir Richard McBride, who will be accompanied by Lady McBride, has consented to perform the opening ceremony. A musical programme will also be given.

Daughters of Empire Ball—Much interest is felt in the ball to be given on Thursday, August 7, at the Empress Hotel, by the Daughters of the Empire, in honor of the visit of H.M.S. New Zealand. A formal invitation has been cabled to the ship at Honolulu, and a reply is expected very soon. The affair promises to be one of the most brilliant of its kind ever held in Victoria, and certainly it will be the banner social event of this season. His Honor the Lieutenant-Governor and Mrs. Paterson, and many other well-known citizens will attend.

Will Open Y. W. C. A.—At the regular monthly meeting of the board of directors of the Y. W. C. A. held yesterday afternoon in the new club quarters on Douglas Street, it was decided to hold the formal opening either on Wednesday or Thursday of next week, when the rooms will be thrown open for inspection by the public. The Agnes Deans Cameron chapter of the Daughters of the Empire has furnished the library, which will be among the most appreciated features of the new Association building. Mrs. Frank Adams, president of the Association was in the chair, and despite the fact that this is the holiday season there was a large attendance of ladies.

Right Hon. R. Barry Dead

LONDON, July 11.—The Right Hon. Redmond Barry, Lord Chancellor of Ireland, died tonight. He was born in 1866. He was Solicitor-General for Ireland from 1905 to 1909 and Attorney-General 1909-'11. He represented North Tyrone in the House of Commons from 1907 to 1911, enjoying the distinction of being the only Irish Liberal in the House.

Those desiring a few days rest and quiet will find St. Alice Hotel, Harrison Hot Springs, B. C., an ideal spot. Situated on Harrison Lake, seventy miles from Vancouver and five miles from Agassiz Station on the C. P. R. Automobiles meet all trains at Agassiz.

COFFEE CARGOES ARE INCREASING

Crown of Castile Clears Brazilian Port With Largest Shipment Ever Dispatched to the North Pacific.

STEAMER CANDIDATE IS PRECEDING HER

Slack Time Anticipated at the Ocean Docks During Ensuing Week—Monteagle and Maru Boat Arrive Together.

On her second voyage to the North Pacific from the United Kingdom, the British steamer Crown of Castile, Captain McKillop, of the Harrison Direct fleet, has cleared the Brazilian port of Santos, and is now well on her way heading for the Straits of Magellan, by which route she will eventually reach Victoria.

While at Santos, the Crown of Castile loaded one of the largest shipments of coffee that has ever been dispatched from the Brazilian port. When she left the British Coast the Harrison liner carried practically a full cargo of general freight, and by the time she left the Brazilian port there was not much space in her capacious holds. She is making fast time and it is expected that she will arrive here about the middle of August.

The average time allowed the Harrison boats is seventy days, but the chances are that the Crown of Castile will coverd the distance inside of two months. The Castile left London June 2, Liverpool, June 9, Glasgow, June 13, and Santos, July 4, for Victoria by way of San Pedro and San Francisco.

Candidate Nears Port

The Crown of Castile will be preceded here by the steamship Candidate, Captain Rushforth, which is now fifty-four days out from Liverpool. The Candidate passed through the Magellan Straits June 18, and should now be somewhere off the California Coast. Following the Castile will be the big freighter Huntsman, which sailed from London July 1, and is due to sail from Liverpool today.

Today the Harrison liner Comedian, Captain Netherton, will return to Victoria to load 100,000 feet of lumber before proceeding to Puget Sound to complete cargo for the outward trip to the United Kingdom. In order that the Comedian may be given quick dispatch she will work hatches tonight and tomorrow, and it is probable that she will get away Sunday night for Seattle.

One of the first big shipments of California canned fruits to be dispatched this season will be taken by the Comedian from San Francisco. The whole of her outward freight is consigned to ports in the United Kingdom.

Few Deep Sea Arrivals

The ocean waterfront will not be the scene of any great activity during the ensuing week, as only two boats of large tonnage are scheduled for arrival. On Tuesday next the Canadian Pacific steamship Monteagle, Captain Davidson, will reach port from the Orient after being away from this coast for three months. According to cable advices received here the Monteagle has a large number of saloon passengers on board, including a good sprinkling of missionaries. She has over 4,000 tons of general cargo, the principal shipment being raw silk.

The Nippon Yusen Kaisha steamship Awa Maru is due to put in an appearance on Wednesday from Yokohama.

It is probable that the Awa Maru will reach the William Head Quarantine Station early in the forenoon, as she is one of the fastest of the sixteen day fleet.

Many Boats on Pacific

The only departure of note will be the Nippon Yusen Kaisha liner Tamba Maru, which is due to sail on Tuesday afternoon with a full general cargo for ports in the Far East. There are quite a number of steamships in the Pacific heading for Victoria. They include the Hamburg-Amerika liner C. Fewd Laeisz, the C. P. R. white liner, Empress of Japan, the Canadian-Australian steamship Makura, the O. S. K. vessel Panama Maru, the Celtic King, from New York, and the Royal Mail boats Vestalia and Monmouthshire.

Cost of Imperator

It is said that the Imperator cost over $8,000,000 to build, but the Hamburg-American Company has already charged fifteen per cent to depreciation. Of the Imperator's two sister ships, the Vaterland, launched recently, is a little larger, the other, now building, is still unnamed. The capital of Hamburg-American line is 150,000,000 marks, and these three ships alone represent 100,000,000 marks of property. Their construction, however, is being done with only 25,000,000 marks ($6,250,000) capital financing, the balance of the fund being taken from earnings.

Swiftest Liner Afloat

The Cunarder Lusitania, which has been five months out of commission undergoing an overhauling, will, according to predictions, be the swiftest steamship in the world when she goes into service again. The date of her reappearance is set for the latter part of August.

Sado Maru Coming On

En route to this port, the Nippon Yusen Kaisha liner Sado Maru will clear from the Japanese port of Kobe today via Yokohama. She will sail from the latter port on Wednesday, and is due to reach here on July 30.

Returning After Long Absence

Canadian-Pacific Liner Monteagle, Which Left Here on April 16, and Was Given a Forty-Two-Day Lay-Over at Hongkong. She Will Berth at the Outer Docks on Tuesday.

Royal Mail Boat's Position

Telegraphic advices from the Orient state that the British steamer Monmouthshire sailed from Yokohama on Thursday last for Victoria. The Monmouthshire is one of the regular steamers in the service of the Royal Mail Line.

STEFANSSON BUSY PURCHASING DOGS

Canadian Arctic Expedition Will Leave Nome Within a Week in Search of Unknown Polar Continent.

NOME, Alaska, July 11.—Vilhjalmur Stefansson, the Polar explorer, and head of the Canadian Arctic Expedition, plans to leave here within a week aboard the D.G.S. Karluk for Point Barrow. Since his arrival here from Victoria, the explorer has been busily engaged in selecting suitable "huskies" for the trip into the Arctic. Over one hundred dogs will be taken along by the expedition.

The Karluk party must complete its dog teams before the expedition sets out in search of the Polar continent, for if land is discovered, it will contain no human inhabitants, and, therefore, no dogs.

The southern party attached to the expedition, under the command of Dr. Anderson, will be in contact nearly all the time with Eskimo tribes that have an abundance of dogs.

WINDJAMMER OFF CAPE

Much Speculation Indulged in as to Identity of Sailing Vessel Heading Off the Straits

Speculation was rife along the waterfront yesterday as to the identity of a square-rigger, which was sighted attempting to beat her way in off Cape Flattery. Up to a late hour last night the guessing competition was still on, and the vessel was still wallowing about off the entrance to the Straits of Juan de Fuca, awaiting the arrival of the tug Tyee, which went out in search of her. Some said she was the Bay of Biscay, others said she was the Holt Hill, then she was a three-master, and those with imaginations of the rubber variety asserted that she was a four-master. Captain Cutler, of the tug Lorne, which is berthed at the Outer Docks getting a new eccentric fixed, refused to vegture an opinion. She was a sailing vessel anyhow. It is not customary for a British vessel to fly the German flag astern, and the Wilhelmine is not of British register.

Not Known at Lloyd's

Under the heading of Foreign Ports, San Francisco papers report the departure of the Don of Ruthvenn from Colombo, and the arrival of the Thode Fagerlund at Karatsu.

The former is not a Spanish Don, but is posted through the usual shipping channels as the Don of Ruthven, of the Royal Mail fleet, and the latter is the Thode Fagelund, plying in the service of the W. R. Grace Company.

TIDE TABLES OF VICTORIA

JULY, 1913

INBOUND SUGAR BOAT CHARTERED

Japanese Steamer Kenkon Maru, for Vancouver With Java Sugar, Taken for Lumber to the Orient.

SAN FRANCISCO, July 11.—The Japanese tramp steamer Kenkon Maru, which left Java eleven days ago, with sugar for the British Columbia refinery at Vancouver, B. C., has been chartered by the Robert Dollar Company for lumber at Puget Sound to the Orient at 6s.

The Dollar Company, while it has recently increased its transpacific fleet from six to nine steamers, is under the necessity of chartering other vessels for its growing business. It is probable that all the vessels of this company will soon be placed under the Chinese flag, instead of the British.

With the increasing movement of Chinese shipping from this Coast, the company is planning the erection of a steel plant here, and has already made preparations for a series of private docks.

The British steamer Epsom is reported at Punta Arenas prior to July 9, en route from Norfolk for Valparaiso for orders with coal for the Government. The vessel will be ordered to San Francisco or Bremerton on her arrival at Valparaiso.

The steamers Hornet and Jim Butler and the schooner William Nottingham have sailed for Puget Sound. The Nottingham is under charter to Hind, Rolph & Co., to load for Antofagasta.

The Jim Butler was delayed a day in her departure by the desertion of her crew, who refused to remain on board because the vessel had been painted inside with a mixture of paint and sulphur, and the odor became almost unbearable.

The Norwegian steamer Jason, of the Pebsen line, is reported as having left Guaymas June 26 for Santa Rosalia. Since that date no report has been received of her.

Princess May Delayed

The C.P.R. northern steamer Princess May has been delayed in sailing on her regular schedule for Skagway, and it is not expected that she will get away before late tonight. During the past few days she was hauled out at the B.C. Marine Ways, and while she was temporarily out of commission, it was considered advisable to carry out minor repairs. She will probably get away prior to midnight for the North.

Blue Funnel Boat Out

After discharging 2,600 tons of British and Oriental cargo at this port, the Blue Funnel liner Talthybius, Captain Allen, cleared port at 3 o'clock yesterday afternoon for Vancouver, where she will put off approximately 6,000 tons.

Trinculo Passes Up

The big oil-tanker Trinculo, with a full cargo of fuel oil from Port San Luis, passed up the Straits yesterday morning for Vancouver.

MAY FLY CHINESE FLAG

Chinese Government May Subsidize Robert Dollar Fleet to Form the Nucleus of Merchant Marine

San Francisco exchanges state that the fleet of the Robert Dollar Steamship Company will, if negotiations pending are consummated, fly the Chinese flag.

The fleet of the company has recently been increased from six to nine vessels, and under the arrangements now pending it will receive a subsidy from the Chinese Government. It is stated that the line will form the nucleus of a Chinese merchant marine.

At the present time the Robert Dollar fleet flies the British flag and is registered at this port.

New Boats for East Asiatic

The East Asiatic Company, of Copenhagen, is stated to have ordered hulls of three new steamers from the Northumberland Shipbuilding Co., Howden-on-Tyne; Messrs. William Dobson & Co., Low Walker, and Messrs. Ramage & Ferguson, Leith, respectively.

These vessels, which are to be about 4,300 tons gross each, are to be fitted with reciprocating engines to be taken from three modern steamers owned by the big Danish firm. The three vessels from which the reciprocating engines will be transferred are to be fitted with Diesel engines.

GOVERNMENT HEARS COURT HOUSE APPEAL

Premier Promises Answer by August 1—Strong Delegation Representative of Vancouver and Suburbs.

Vancouver and its numerous suburbs spoke with one voluminous voice yesterday in the ear of the Provincial Government in an appeal to have the site of the old courthouse reserved for park purposes, instead of being put up for sale, as may be the alternative policy of the Government. The Premier and his ministers heard the representatives of the Mainland town, and then, on behalf of the Government, he promised them an answer by August 1.

What the answer will be it is impossible to say with certainty, but judging by the speech of the Premier in reply to the deputation, who, by the way, represented not only the city and all the public organizations, but also all the municipalities connected therewith, it will not be so positively affirmative as the appellants might wish. And it is almost safe to predict, from the sayings of several of the delegates as they left the executive chamber, that they will be extremely surprised if their wish should be gratified.

In effect, the Premier informed the deputation that Vancouver had nothing to complain of as regards the treatment it has received at the hands of the Government. He pointed out that during the last five years the Government revenue derived from the Terminal City amounted in round numbers to the sum of $2,000,000, while during the same period the sum of $6,000,000 had been spent upon it by the Government. And the future, he went on to say, was very likely to enlarge, rather than minimize, the difference, as might be assumed when the establishment of the new university was taken into account, together with a number of other important works now contemplated. During the next three years or so, while the university is building, the Premier forecasted that the difference between the money collected and the money spent by the Government upon the city of Vancouver would greatly expand.

Adopting another line of argument, he said quite frankly that the Government had no intention to treat Vancouver with indiscriminate favors or disfavors. What she was entitled to she would get, as would the other cities of the Province. He, as Premier, and head of the Provincial Administration, had to see fair treatment all round, and one of the essential duties pertaining to that task was to see that no special privileges were accorded. He would not go into the question of fixing a price for the property, nor, indeed, into any of the propositions brought before the Government at this time, but would take the matter into calm consideration and give them a definite answer later on, probably by the beginning of August, after a full meeting of the Executive had gone into the question.

Mayor Baxter, who led the deputation, referred to the very unanimous spirit of the people of the Mainland in regard to the reservation of the property, and pointed to the delegates to confirm that statement. He also mentioned that the city was prepared to pay the sum of $200,000 for what they were asking, and in that connection mentioned that that was the price set by Captain Tatlow.

The deputation was probably the largest and the most influential that has ever visited the Capital from the Mainland city. In addition to Mayor Baxter and a number of aldermen, there were present three members of the Provincial House for the city, namely, Mr. H. H. Watson, M. P. P.; Dr. G. A. McGuire, M. P. P., and Mr. A. H. B. Macgowan, M. P. U.; members of the Progress Club, the Board of Trade, Trades and Labor Council, Canadian Club, Women's Canadian Club and Ratepayers' Association, all of Vancouver; representatives from the cities of New Westminster and North Vancouver and the municipalities of West Vancouver, South Vancouver, Point Grey and Burnaby.

GOOD CONDITION CIVIC FINANCES

Continued From Page 1

quate water supply and the extension of water distribution, as well as other important works. In addition, there were what is known as local improvements, cement sidewalks, asphalt streets, cluster lights, street widening and street extensions, and for this class of work obligations to the extent of over $5,000,000 were undertaken in one year, and I believe some of this work is still unfinished.

It was here, Mr. Shallcross explained, that the difficulty was encountered, for the law provides that bonds cannot be issued for works of local improvement until the work is finally completed. Therefore the necessity arose to arrange, temporarily, a large floating debt. That was the situation at the beginning of the year. Then, partly owing to phenomenal expansion of trade and partly because of the German Empire's new military dispositions, there was experienced the trouble, of which most business men knew, of marketing bonds. What made the conditions worse was the conservatism of the banks. They were not advancing any more than they had to, and would not give the city the usual overdraft on the security of the current year's taxes.

Present Happy Situation

However, Mr. Shallcross continued, this was past history. Since then the city had disposed of $4,000,000 worth the bonds. Of this amount about $2,000,000 was for permanent works, for instance, on sewers there was to be laid out $650,000, on schools $440,000, and on the Sooke Waterworks scheme, $450,000.

At the present time Victoria had on deposit with her bankers $4,000,000, against which there were advances of less than $2,500,000, leaving a balance of about $1,500,000, and Mr. Shallcross added, there would be a credit balance for the rest of the year. It is true that a considerable portion of these deposits is ear-marked for sinking funds, etc., but the important point is that the money is there and available to provide the accommodation required to meet the exigencies of the moment. The fact that this was the present situation was a matter of great credit to the city. It meant that it was unnecessary to look outside for assistance, that the money is here, and that all the banks have to do is to charge their commission.

Some liquidation was still required, but it was of a character that would work itself out, all that was needed being the exercise of a little patience on the part of the people. As things now stand, about $2,000,000 has been expended on local improvements which it will require another $1,000,000 to complete. When the work involved in this outlay is finished, the speaker explained that bonds to the extent of $3,000,000 could be placed on the market.

Mark Time Now

It was Mr. Shallcross' opinion that, until these local improvement projects were out of the way, it would be a most injudicious thing for the civic authorities to enter upon any others. His contention was that it was not a healthy sign to find a large section of the population of a city dependent on the work provided by the works department and paid for by borrowed money. For this year, he stated, the expenditure of one million and three-quarters, as was intended, was quite sufficient. The purposes to which this money was to be devoted were of a character that must meet with the approval of all right-thinking citizens.

Reference also was made to the Provincial law which stipulates that local improvement bonds cannot be offered for sale until the work is completed and the assessments arranged. It was this which, in Victoria's case, made the floating debt, which has been spoken of, necessary. He thought the law was a faulty one and that the Legisuature might make such an amendment as would make it easier for a municipality to handle the finances in connection with great public works which must be paid for on the local improvement basis.

Generally, Victoria was in a specially happy condition. There had been no foreclosures, and, as far as the speaker was aware, there were no forfeitures under agreements for sale. Credit and confidence were the basis of the financial fabric of a community, as they were of a country or a nation. The facts stated appeared to indicate that Victorians had absolute confidence one in the other. That was a matter on which the city was to be congratulated. The speaker, continuing, expressed the hope that the people would pay their accounts regularly and not be impelled to hold back because of any fancied financial stringency. The future would look after itself. It was bright. The bankers of Canada were very cautious, although, perhaps, not too much so. The cash reserves of the London banks amount to 10 per cent of their total liabilities, while the reserves of the Canadian banks totaled 15 per cent of their aggregate liabilities. This was a striking commentary on their strength. Victoria, its citizens might rest assured, was sound. The exercise of a little patience, a little restraint, and the city would pass the present state of general financial stringency and be stronger for the experience.

Alderman's Observations

Alderman Cuthbert, in commenting on these remarks, said that he was glad that someone else had concluded that the city's finances were O. K. That always had been his opinion, and he had so expressed himself on many occasions. No Canadian community, he maintained, was in better shape financially. What President Shallcross had said was correct in substance, and yet, he thought, he was astray in speaking of the local improvement expenditure as a city debt. He maintained that the city had only borrowed $5,000,000 of the $20,000,000 which it is legally empowered to raise. He spoke, also, of the local prosperity. What was important was that the city devise some method of finishing the undertakings already planned and introduce a credit instead of a debit system. This done, the city would be on an even keel.

Mr. Shallcross thought that the total debt was more than $5,000,000, considering all obligations.

Alderman Cuthbert maintained that this was not so. The total civic debt was under $5,000,000. The local improvement expenditures could not be considered. They were chargeable to specific property, and only in the event of that property failing to meet its obligation was the city responsible.

At this point, Mr. Shallcross, while not admitting the distinction, seeing that the city guaranteed all its debts, remarked that whichever way it is considered the situation is eminently satisfactory. He then drew attention to the different forms of civic loans; ten year loans for sidewalks and pavement, twenty-five years for street widening, and fifty years for waterworks, sewers, etc. To all these loans sinking funds were attached, and within a few years a large proportion of the total debt would be extinguished.

President Thanked

Mr. C. H. Lugrin expressed the opinion that the members of the Board and citizens generally were indebted to Mr. Shallcross for the very lucid explanation given of the city's financial condition. One unfortunate circumstance was that the people had not been told before, in common, everyday English, of the state of their affairs. As a result, unwarranted reports had gone abroad which had a bad effect on investments, etc. He thanked the president, and felt sure that his remarks would be

ly after the close of the discussion, was specially invited to give an expression of opinion. He remarked that this was a period of comparatively hard times. There had been so much trade expansion in the last few years that economy was necessary to catch up. Canada depended largely on the London money market, and the European affairs had caused a momentary tightness in funds. France and Germany, it was reported, were hoarding gold. These were the reasons for the conditions. As for Canada, there was no cause for alarm. She was absolutely sound. At present, Canada had to borrow from abroad in order to carry on necessary improvements, but with a little further development she would become largely self-supporting and able to provide much of the new capital required. Victoria was in a happy situation and her finances not in any condition to cause alarm. The only thing to be done was to sit tight and economize for a brief period. Things would right themselves.

Mr. Lugrin's motion of a vote of thanks to President Shallcross was carried unanimously and with enthusiasm.

Coluss Now Loading

The Grace liner Coluss has returned to Tacoma from Dupont to complete outward cargo for Panama. She will go to the Columbia River for part of her cargo.

Ikala Claims Demurrage

Captain Carruthers, master of the British steamer Ikala, has served papers on the commander of the American cruiser Chattanooga, asking for $200 demurrage for occupying the wharf of the Willapa Lumber Company at Raymond, where Captain Carruthers was due to load, and thus, he alleges, delaying the Ikala. The commander of the Chattanooga is said to have disobeyed orders from the United States Navy Department in going to Raymond and staying there.

Tamba Clears on Tuesday

The Japanese steamer Tamba Maru, of the Nippon Yusen Kaisha, is now at Seattle loading for the Far East. On Tuesday next she will clear from Victoria with a capacity cargo for the Orient.

The Suspicious Coal Man

"YOU'RE not buying as much coal this winter," said the coal man frowning darkly at Mr. McBride.

"So you noticed that, did you?" remarked McBride with a smile of keen delight.

"Buying somewhere else?" questioned the suspicious coal man.

"No, just threw out the old 'Warhorse' that I had in my cellar and put in a McClary's Sunshine Furnace. And I'm buying one-third less coal."

"You see, McClary's Sunshine Furnace has many features for cutting coal bills that no ordinary furnace has. For one thing it has four radiating surfaces that gather up the heat and distribute it through the house. The gas chamber is built to get all the heat out of the gases which would otherwise escape up the chimney. And its four triangular grate bars release ashes without wasting fuel. And its straight fire-pot—"

"Gee! Mr. McBride," interrupted the coal-man, "You talk like a McClary salesman."

"Well, you see," said the enthusiastic McBride, "I went into the furnace question mighty thoroughly before I decided on the Sunshine, and I know what I am talking about."

"Well, Mr. McBride, I must say that the Sunshine is a bad furnace for the coal man's business. But I wouldn't mind saving some coal myself, now that the cost of living has gone up so high."

"Better see the McClary agent," was McBride's parting suggestion.

If you have an old "Warhorse" in your cellar it will pay you to see the McClary agent in your locality. You would also find it profitable to write for a copy of the latest Sunshine furnace booklet. Address our nearest office.

McClary's Sunshine Furnace

Stock Markets and Financial News

ANOTHER DULL DAY ON MARKET

Trading Comes Almost to Standstill in New York—Bonds Slightly Affected by Sagging in Stocks.

NEW YORK, July 11.—It is necessary to go back over a long stretch of years to find another day as dull as today in the stock market. There have been many dull sessions recently, but none of them approaching today's. Total transactions were 64,000 shares, the smallest number traded in on any full day since May 27, 1896.

With tariff and currency legislation, the possibility of a strike on the eastern railroads and the Balkan war hanging over the market, speculators are not inclined to take on new lines for either account, and as the day was barren of news upon which to base operations, trading came almost to a halt.

New York Central sold early in the day at 95¾, a new low record for the year, and Chesapeake and Ohio at 61¼ also reached a low point.

In addition to the loss of $5,000,000 gold shipped abroad, the interior movement was less favorable to New York. Had it not been for $1,000,000 gold received from Canada this week, the banks would have shown a loss on direct operations with the interior.

Bonds were affected slightly by the sagging of stocks.

Total sales, par value, $1,625,000.

United States 2's registered declined 2½ and the 2's registered and Panama 3's ½ on call.

(Furnished by F. W. Stevenson & Co.)

Money on call, high, 2¼; low, 2; bid, 2 per cent.

LONDON EXCHANGE

LONDON, July 11.—The stock market, having discounted the Balkan peace prospects, is now awaiting further developments. Dealings, therefore, were smaller today, with the tendency of values irregular. Copper, Brazilian rails and bonds hardened, but local and Continental profit taking caused speculative issues to drop. The settlement was concluded without trouble.

American securities opened steady and about unchanged. A decline of most of the list advanced on covering before midday. The closing was quiet and steady.

Money was in good demand and discount rates were easier.

GRAIN MARKETS

WINNIPEG, Man., July 11.—Wheat prices were on down trend on the Winnipeg and American markets today, due to the general rains over the Spring wheat areas. Buyers on Thursday were sellers on Friday on the more favorable crop conditions reported on heavy rain. July sold at $1 during the first half hour of business.

Through the clearing house today there were 70,000 bushels No. 2 hard wheat delivered at 8 cents under the July options, being the widest spread for a long time.

Winnipeg opened unchanged to ¼c. lower and closed ¾c. to 1¼c. lower. Minneapolis opened ¼c. to ⅝c. lower and closed ⅝c. to 1¼c. lower. Chicago opened ¼c. to ¼c. lower and closed 1 to 1¼c. lower.

The cash demand was quiet. There were few offerings and no export enquiry. Cash prices closed unchanged to 1c lower.

Oats and flax during the early hours were strong, weakening later. Cash oats closed ¼c. lower. Cash flax closed ½c. higher.

Deliveries through the clearing house today were wheat, 194,000 bushels, oats, 56,500, and flax 26,500 bushels.

Inspections on Thursday were 166 cars and in sight were 300.

MONTREAL STOCKS

MONTREAL, July 11.—It was another lifeless day for local stocks today, no new developments furnishing an incentive to trading, and prices continuing to fluctuate within narrow limits. The tendency continued to be a sagging one, and although declines in few of the important stocks extended to more than small fractions, yesterday's movement, narrow as it was, was sufficient to bring eight or nine issues into new low ground for the year. Bell Telephone sold in broken lots at 139 and 138, or below the record for a number of years. Laurentids at 144, MacDonald at 39¾, Quebec Railway at 10½, Sherwin-Williams at 50, Molson's Bank at 191, Dominion Coal bonds at 97, and Porto Rico Railway bonds at 88, established quotations which were not only the lowest of the year, but in some cases the lowest on record and in others the lowest for a number of years. Total business, 2,000 shares.

A CEMENT AND LIME PROPOSITION

We Are Requested by Mr. Joseph Wrigleworth to place on the market his property, consisting of 224 acres, more or less, situate at the 17-Mile Post on the line of the Esquimalt & Nanaimo Railway and close to deep water, offering ideal shipping facilities by way of Saanich Inlet.

THIS Property has from 30 to 40 chains of trackage and would be particularly valuable to the manufacturers of cement or lime, or both, containing practically unlimited bodies of lime rock besides the other constituents which enter into the manufacture of cement.

A Certain Amount of exploratory work has been done on the property and from samples tested by Messrs. Henry Faija & Company, of London, the analysis of rock showed to be 98.70 per cent of Carbonate of Lime. Slate and shale exists in large quantities.

We Can Arrange to take bona fide parties and show them over the property.

An Actual Test of the manufactured article has proven it to be equal to the best English cement.

The property contains a lake, thus affording ample water for all purposes at all times.

This Proposition is well worth investigation by interested persons who can obtain further particulars upon application at our office.

A Blessing To Mothers

A mother thinks carefully when choosing an ointment for her baby's tender skin. It must be pure through and through—must contain nothing that can possibly harm.

This is what makes "Vaseline" such a great blessing to mothers.

It is *pure*—absolutely *pure*—the best and safest ointment for the skin from earliest infancy.

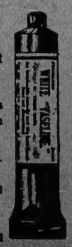

"Vaseline" is a great cleanser. It works into the pores and takes away all dirt and impurities with it. It keeps the skin fresh, clear and soft, as Nature made it.

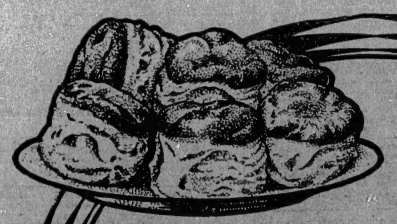

There are several different preparations of "Vaseline," put up in collapsible tin tubes which insure untainted purity.

Our free "Vaseline" Booklet tells all about them and gives many other useful household hints. *Write for your copy today.*

1880 Chabot Ave. Montreal

Do You Make Biscuits This Way?

2 cups flour; 4 teaspoons Baking Powder; 2 tablespoons Swift's Silver-Leaf Lard; ¾ cups milk; ½ teaspoon salt. Mix dry ingredients and sift. Work in lard, add milk gradually. If too stiff add a little more milk or water. Roll out on floured board to ½ inch thick. Cut and place in greased pan. Bake in hot oven. *They are delicious.*

Swift's Silver-Leaf Lard

is the very best shortening for Baking Powder Biscuits, because it has just the right consistency and richness to make them perfectly light and flaky and you can't taste the lard in them.

Swift's Silver-Leaf Lard is put up in tight covered, new tin pails under the close supervision of Government inspectors.

It is as clean and pure as lard can be and it makes such tasty pastry.

LET US HELP YOU TO A HOME OF YOUR OWN

Year after year, you've been paying out hard-earned money to your landlord for rent. You've promised yourself a thousand times that you'd make the start to own your own home, but you've found it difficult — you haven't been able to see your way clear.

THE C.H.I.C. PLAN SHOWS YOU THE WAY

It is the most convenient and practical home-owning plan before the people of Canada. In all sections our contract holders have been enabled to purchase homes of their own—free themselves of the landlord burden. Investigate the C.H.I.C. plan NOW. Call or phone our local office for particulars. You will be under no obligation.

$2.95 for Women's Shoes Worth to $4.50

TRUE economy is the buying of goods that you can use to advantage when those goods can be bought at less than they are really worth. That's why we call these lines bargains; they are quality goods that you can use to advantage, are right up-to-date in style, and the prices are away below the mark at which we can afford to sell them in the regular way.

The lot includes Button Low Shoes, in patent tan calf and gun metal; Colonial Pumps, in patent, gun metal, and tan calf; Oxford Ties, in patent, gun metal, tan and brown kid and vici kid; Button and Lace Boots, in gun metal, patent and glace kid. These come in all shapes and sizes, and in both high and low heels.

Regular values to $4.50. Today.....$2.95
